## REMEMBRANCE DAY

On the 11<sup>th</sup> hour, of the 11<sup>th</sup> day, of the 11<sup>th</sup> month: WE WILL REMEMBER.

Thank you to our Canadian Armed Forces personnel who have served, and are serving, in the army, navy and air force to ensure our liberties and safety are not lost. The extreme sacrifice given by so many will never be forgotten. We owe you more than one day of gratitude for all that you have done, and continue to do, on our behalf to keep us safe and to provide hope for all people that peace can and will be maintained. The presence of our Canadian military around the globe has, and continues to bring, comfort and assurance that peace is possible and can be maintained.

For the days spent away from your families and home, we thank you. For the hours spent in training, we thank you. For the times you have placed yourself in danger to maintain our safety, we thank you. For being part of a peace-keeping force willing to go where needed around the world, we thank you. For those who have given the ultimate sacrifice, we thank you.

To the 95,000 active military personnel and the 51,000 Reservists: **We thank you.**

### WORK ON HAMILTON DRIVE NEARING COMPLETION

Thank you for your patience while the work on Hamilton Drive has been underway.

HRM staff are working to provide reinstatement of the road to bring it up to current standards. The work is scheduled for completion by mid-November.

The result will be a road of higher quality that will service the community for years to come.

### UPDATE ON PETITION – LUCASVILLE ROAD | SACKVILLE DRIVE CROSSWALK REQUEST

HRM Traffic Analysts and Engineers have met to discuss the request by area residents for a crosswalk at Lucasville Road and Sackville Drive to facilitate safety for students walking to and from Sackville Heights Elementary School.

A study was done earlier in the spring to obtain pedestrian data; at that time the counts did not warrant a crosswalk. Another count is planned for this fall. Staff will also gather speed data for this location. A further update will be provided once the results of the data collection are available.
