## Item No. 3

Committee of the Whole  
November 14, 2017

**TO:** Mayor Savage and Members of Halifax Regional Council

Original Signed by

**SUBMITTED BY:**

\_\_\_\_\_  
Jacques Dubé, Chief Administrative Officer

**DATE:** November 7, 2017

**SUBJECT:** 2017 - 2020 Multi-year Priority Outcome Update

---

### **ORIGIN**

On December 6, 2016 Regional Council adopted a Strategic Planning Framework, established priority outcomes for their term and directed staff to develop multi-year plans to advance those outcomes. Consistent with past practice, staff is providing an update on those priorities and seeking Council's direction on the 18/19 Multi-year plan.

### **LEGISLATIVE AUTHORITY**

Halifax Charter, section 35 (1) The Chief Administrative Officer shall (b) ensure that an annual budget is prepared and submitted to the Council.

### **RECOMMENDATION**

It is recommended that Halifax Regional Council direct staff to:

1. Proceed to prepare the 18/19 multi-year budget and business plan in support of Council's Priority Outcomes and consistent with the Outcome Plans as presented or amended by COW.
2. Continue development of key performance indicators to inform progress in advancing Council's Priority Outcomes.

## **BACKGROUND**

Over the last three municipal elections, Regional Council has established priority outcomes for their term and directed staff to develop plans to advance those outcomes. Consistent with this practice, on December 6, 2016 Regional Council adopted a Strategic Planning Framework (Attachment A) and approved the 2017-2020 Priority Outcomes (Attachment B). The priority outcomes are strategic aspirations for the community that focus on medium to long term desired outcomes. These are not operational or tactical objectives; instead they describe a desired end-state sought for the overall betterment of the entire HRM community. The tactics used to advance these outcomes are developed as part of the budget and business planning process.

Once established by Council, these priority outcomes typically remain unchanged year over year. However, it is prudent to review and confirm them annually in advance of budget and business plan consideration. This annual review and validation typically occurs every November to launch the budget and business planning process.

## **DISCUSSION**

Regional Council adopted a multi-year approach to budget and business planning commencing in the 2017/18 fiscal year. Approval of the Strategic Planning Framework and Priority Outcomes provided staff with multi-year direction and as a result, staff presented multi-year budgets and business plans to support Council's Priority Outcomes. In April of 2017, Council approved the 17/18 Business Plans, and approved the 18/19 Business Plans in principle. These plans include strategies and tactics developed to advance the Priority Outcomes identified by Council.

The Priority Outcome Presentations (Attachment C) will provide COW with:

1. An overview of the Priority Outcomes identified and approved in December 2016
2. An update on current and planned initiatives
3. An overview of ways we can start to measure progress
4. Some key performance indicators (KPIs) based on available information

The current and planned initiatives will provide COW with an overview of what has been accomplished to date, and how staff intends to proceed under the current strategic direction. Should COW wish to change their strategic direction, staff is fully prepared to adjust the planned initiatives accordingly.

Performance measurement and reporting is a key element of any plan. Staff has included KPI results in the priority outcome presentations. The measures included are those that are currently available, but may not necessarily be the best indicators to gauge progress. As systems and performance management cultures mature and better data becomes available, the KPIs will be refined and become more stable and meaningful over time.

## **FINANCIAL IMPLICATIONS**

Although there is no direct impact on the budget, providing direction on Priority Outcomes will have an influence over the recommendations staff make for future years.

## **RISK CONSIDERATION**

There are no risks associated with this report.

## **COMMUNITY ENGAGEMENT**

The foundation of HRM's strategy is the Regional Plan which was developed with extensive public consultation. In addition, the current budget consultation process seeks to solicit public comment on

community priorities, which inform identification of Council's priorities.

### **ENVIRONMENTAL IMPLICATIONS**

There are no immediate environmental implications to this recommendation.

### **ALTERNATIVES**

Council could choose to add, delete, or amend their Priority Outcomes and direct staff to develop the 18/19 Multi-year Budget and Business Plans in support of those amended priorities.

# Healthy, Liveable Communities

HRM is a safe, liveable and sustainable community that encourages public engagement and participation in complete communities.

# Healthy, Liveable Communities

## Council Priorities

Outcome	Description
Public Safety	Halifax citizens and visitors are safe where they live, work, and play.
Energy and Environment	Halifax builds resiliency by providing leadership in energy management, sustainability and environmental risk management both as an organization and in the community we serve.
Recreation and Leisure	Halifax citizens have access to facilities and natural assets that enable a range of choices for structured and unstructured leisure and recreation activities.
Community Health	Halifax shall be an active partner in supporting community health programs such as food security initiatives.

# Healthy, Liveable Communities

## Current and Planned Initiatives

### Public Safety

Halifax citizens and visitors are safe where they live, work, and play.

- Public Safety Strategy has been completed and implementation, monitoring, and evaluation is underway
- Cannabis: HRM working group is monitoring federal and provincial initiatives concerning legalization and making necessary plans to be ready for July 2018
- Nova Scotia Human Rights Commission has appointed independent expert to conduct analysis of HRM street check data.
- HRP is working with national partners and international experts to design a survey on public attitudes toward policing in Canada. Halifax will be the first pilot site for the survey. HRP also conducted a survey exercise with over 100 of our closest community partners earlier this year, to understand how best to work with these key groups

# Healthy, Liveable Communities

## Current and Planned Initiatives

### Public Safety

Halifax citizens and visitors are safe where they live, work, and play.

- Incident Command System: Continued training and inter-agency work is being done to ensure first responders are aware of the scene upon which they are arriving
- Fire Services continues to increase inspection volumes. FSMI program will be evolving to include Daycares, Places of Worship, and Bars/Restaurants
- Volunteer firefighting program expanded to ensure volunteer firefighters are on standby in 6 communities 7 days a week
- lamResponding software install has significantly improved Volunteer firefighter responses from 28 stations

# Healthy, Liveable Communities

# 311 Contact Centre – Call Volume

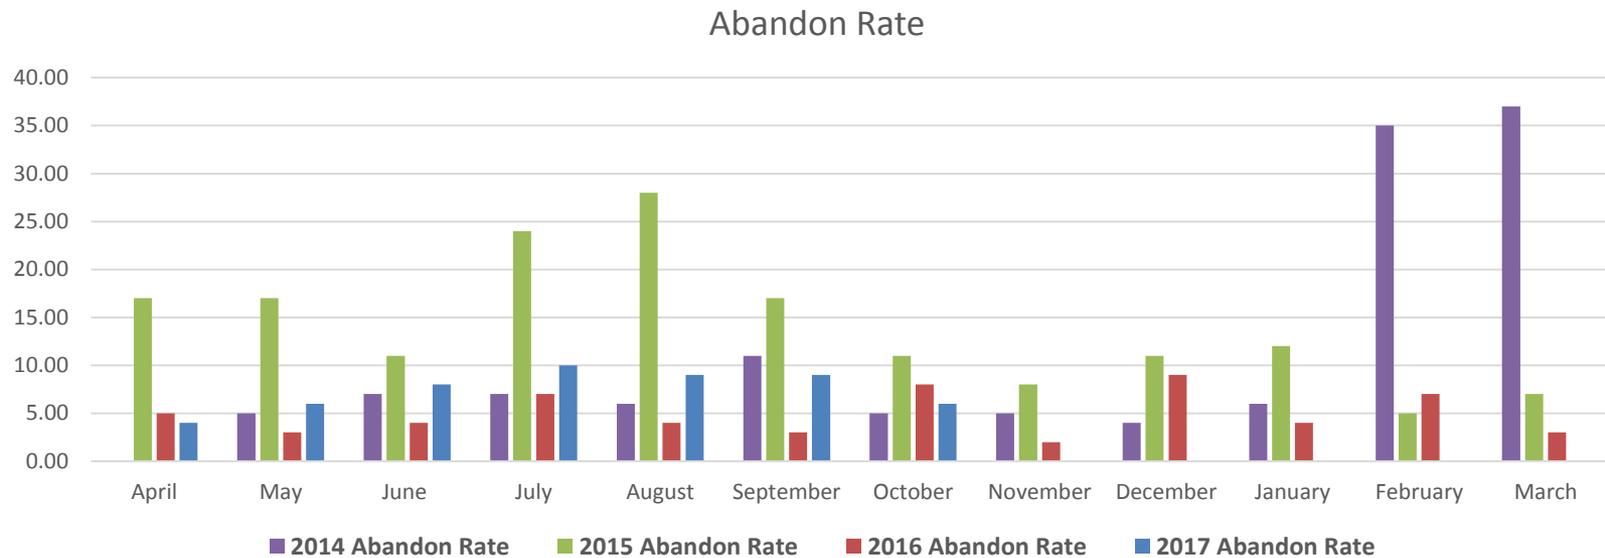

- Call volume for 2017 YTD is trending below the previous year
- A direct benefit of the new telephony tool saw 71K customer calls handled without Agent intervention by utilizing information mailboxes and up front Interactive Voice Response (IVR) messaging to communicate information

# 311 Contact Centre – Service Level

- 2016/17 fiscal saw a significant improvement in service level over previous two periods
- While the Contact Centre is slightly below target this fiscal, we have seen steady improvements over the past three months
- As service levels improved over the past 18 months, customer complaints/concerns regarding wait times have declined considerably

# 311 Contact Centre – Abandon Rate

- Service level (GOS) and abandon rates are inversely related; as GOS goes up, abandon rates go down
- Year-to-date the abandon rate for 311 sits at 7% which is below the 10% target
- Filling vacancies in November should result abandonment rate declining even further
