Voices from Community

“A community where those with less are working along side those with more and everyone is equally supported.”

WAVERLEY, FALL RIVER, MUSQUODOBOIT VALLEY
RESIDENT

HALIFAX

“My poverty free Canada, not just its communities, would allow for individuals currently living in poverty to have access to the basic guaranteed income. This is simply a starting point. We need to start thinking about poverty differently and look at it as a public health issue.”

TIMBERLEA, BEECHVILLE, CLAYTON PARK,
WEDGEWOOD RESIDENT

HALIFAX

“My poverty-free community would have ample affordable housing and job opportunities for all those that can work. Educational and re-training options along with childcare spots for moms wanting to work.”

“Clean energy, low emission vehicles, friendly for walking / cycling, community gardens and engagement to ensure inclusion and chances to reach out to those living in isolation.”

“A poverty-free community has a blending of income and demographic groups. There are small local businesses operated by locals as well as chain stores. More public spaces such as community centres and learning centres as well as public gardens. More small businesses than we currently see.”
