Date of Meeting: September 22

Subject: overnight street cleaning

Motion for Halifax Regional Council to Consider:

Request a staff report regarding the financial and operational implications of eliminating overnight non-emergency municipal operations

Reason:

The municipality conducts routine non-emergency nighttime operations.

Street cleaning, leaf vacuuming, and sometimes minor road repairs take place overnight. Some residents are regularly woken up every twice a week by the street sweeping operations (an issue many on the block have who sleep in front facing bedrooms).

Many other cities opt instead of alternate side of the street parking on street cleaning during the day. This kind of operation during the day could present operational cost savings.

Outcome Sought:

Report that outlines steps to be taken and possible phased approach to move to daytime operations, financial implications (short and long term) and transition plan.

Councillor Mason

District 7
