DATE: September 20, 2018

SUBJECT: HRM Election Campaign Financing By-law

ORIGIN

Motion from the September 20, 2018 Executive Standing Committee Meeting.

LEGISLATIVE AUTHORITY

Administrative Order One - Procedures of the Council Administrative Order, Schedule 6, Executive Standing Committee Terms of Reference, section 8:

General Governance of the Council

8. The Executive Standing Committee shall act as a review committee for matters related to the general self-governance and administration of the Council as directed by the Council.

RECOMMENDATION

The Executive Standing Committee recommends that Halifax Regional Council:

1. Adopt By-law C-1100, the Campaign Financing By-law, as set out in Attachment A of the staff report dated August 15, 2018;
2. Direct staff to conduct a review of By-law C-1100 after the next regular election and return to the Executive Standing Committee with their findings; and
3. Request a staff report regarding the introduction of an administrative order on the use of HRM corporate resources during an election.

BACKGROUND/DISCUSSION

A report dated August 15, 2018 was before the Executive Standing Committee at the meeting held on September 20, 2018. Staff provided a brief presentation and members of the public were invited to speak to the matter for up to five minutes. After a discussion, the committee approved a motion to recommend that Halifax Regional Council adopt By-law C-1100, and suggested a Committee of the Whole meeting be held.

FINANCIAL IMPLICATIONS

There are no financial implications associated with this report.

RISK CONSIDERATION

No risks identified.

COMMUNITY ENGAGEMENT

The Executive Standing Committee is comprised of seven duly elected officials. Meetings are held in public unless otherwise indicated and the agenda and materials are posted to the HRM website. In addition, the Executive Standing Committee meeting is webcasted, and a meeting video is posted to the committee webpage after the meeting. For additional details regarding the community consultation process, please refer to the attached staff report dated August 15, 2018.

ENVIRONMENTAL IMPLICATIONS

No environmental implications identified.

ALTERNATIVES

The Committee did not provide alternatives.

SUBJECT: **HRM Election Campaign Financing By-law**

ORIGIN

The following motion was passed by Regional Council on February 3, 2015.

Moved by Mayor Savage, Seconded by Councillor Craig:

That Halifax Regional Council request a staff report examining the legislative options and implications of campaign finance reform for municipal government in Halifax, as identified in the discussion section of the November 24, 2014 Executive Standing Committee report.

LEGISLATIVE AUTHORITY

Halifax Regional Municipality Charter, Section 60A as follows:

60A The Council may make by-laws, not inconsistent with Sections 49A and 49B of the Municipal Elections Act, respecting contributions and expenses for the election campaigns of candidates for the office of Mayor or councillor including, without limiting the generality of the foregoing, election campaign spending limits, maximum contribution amounts, disclosure requirements, eligibility to contribute and dates for making contributions. 2016, c. 9, s. 1.

General Governance of the Council

8. The Executive Standing Committee shall act as a review committee for matters related to the general self-governance and administration of the Council as directed by the Council.

RECOMMENDATION

It is recommended that the Executive Standing Committee recommend that Halifax Regional Council:

1. Adopt By-law C-1100, the *Campaign Financing By-law*, as set out in Attachment A of this report;
2. Direct staff to conduct a review of By-law C-1100, after the next regular election and return to the Executive Standing Committee with their findings; and
3. Request a staff report regarding the introduction of an administrative order on the use of HRM corporate resources during an election.

BACKGROUND

The *Municipal Elections Act*, R.S.N.S., 1989, c.300, (the “MEA”) sections 49A and 49B set the parameters on how municipal and school board election campaign finances are administered. The MEA applies to all municipalities of Nova Scotia and therefore provides broad provisions on how campaign finances are administered. On February 3, 2015 Regional Council, identified the need for greater rigor on how campaign finances are administered, and initiated a process to explore potential legislative options. The following is a chronology regarding municipal election campaign finance accountability:

- February 3, 2015, Regional Council requested a staff report to examine the legislative options and implications of campaign finance accountability.
- September 8, 2015 Regional Council requested that the Province amend the HRM Charter for the authority to enact a campaign finance by-law. The report provides background, and formed part of the information materials provided to the public during the consultation process.
- April 15, 2016, the Provincial Government introduced Bill No. 154 to amend the Charter to grant the Municipality the authority to enact a by-law regarding campaign finance.
- April 26, 2016, Regional Council, in anticipation of the passing of Bill No. 154, requested that staff initiate a process to consult the public on the issue of campaign financing, and to subsequently prepare a by-law.
- On May 20, 2016 Bill No. 154 received Royal Assent. (Does not include school board candidates).
- Municipal Election October 15, 2016.
- March 7, 2017 Regional Council approves a communications and engagement approach for the public consultation on campaign finance accountability.
- May – June 2017 consultation on campaign finance accountability is conducted. Featured in the Community Engagement section of this report.
- September 2017 results of the consultation compiled, and are provided to members of Regional Council and posted to the Shape Your City Halifax webpage.

The proposed by-law represents a first step in campaign finance accountability. Through the analysis of other jurisdictions’ by-laws, public consultation findings, and campaign contribution statements from previous municipal elections, a draft by-law has been developed. Should Regional Council approve the proposed by-law, staff have recommended that a review be conducted after the 2020 election, which may yield amendments. The concept of the use of corporate resources during an election, arose from the jurisdictional scan. Creating additional rules may help to clarify the role between the Municipality, (its resources), and members of Council seeking re-election. Therefore, a recommendation to initiate an administrative order to complement the proposed by-law has been put forward.

DISCUSSION

The proposed by-law (Attachment A) has been prepared with the intention that it will establish a framework, and act in concert with the campaign finance provisions listed in sections 49A and 49B of the MEA. The existing campaign finance provisions in the MEA are basic, and therefore the proposed by-law is a first step towards greater accountability and transparency. The proposed by-law strives to balance best practices as well as the realities of HRM, and its municipal election campaigns. Staff are recommending proceeding with an iterative approach towards campaign finance provisions. The discussion section has been organized to mirror the focus areas used during the public consultation process.

Contributors and Contribution Amounts

At present there are no restrictions on what entities (e.g., individuals, corporations, unions, or self-funders) may contribute to campaigns or how much may be contributed; however, anonymous and third-party contributions are restricted. Some jurisdictions restrict the ability of corporations or unions from providing contributions to municipal candidates. Based on feedback received during public consultations, and the jurisdictional scan, the proposed by-law prescribes that only individuals, candidates, or a spouse of a candidate may contribute to a campaign. Corporations, trade unions, associations, and partnerships are not permitted to make contributions to campaigns. It is anticipated that limiting contributions to individuals, may create balance amongst all candidates.

In determining contribution limits, staff reviewed the public consultation feedback, the jurisdictional scan, and previous Candidate Campaign Contributions Disclosure Statements (Form 40). The survey and consultation findings on the maximum contribution amounts, indicated support for a maximum contribution of \$1,000. In review of the jurisdictional scan, each had fixed vastly different amounts, resulting in no consensus on a set contribution limit.

Therefore, staff analyzed previous Form 40s filed in the 2012 and 2016 Municipal Elections, and are recommending the following contribution provisions:

- An Individual may only contribute \$2,500 per councillor and mayoral candidate with the Individual's total contributions during an election not exceeding \$7,500.
- A Candidate and their Spouse may contribute no more than \$10,000 combined to the Candidate's campaign.

Contribution Timelines

Many jurisdictions have created an election contribution period, that permits contributions to be made within a specific time frame. Establishing a period for contributions to be collected may help level the playing field for all potential candidates. The public consultation feedback supported having a defined period and most jurisdictions provide several months to a year of time. As the MEA has established fixed election dates, the following timelines are recommended in the by-law:

- For a general Election, contributions may only be received beginning twelve (12) months prior to the ordinary polling day and terminating sixty (60) calendar days after ordinary polling day.
- For a special Election, contributions may only be received beginning the day immediately after Council has set the special election day and terminating sixty (60) calendar days after ordinary polling day.

Maximum Spending Limits

The proposed by-law establishes a formula to determine spending limits for all council positions. The survey findings suggested that councillor spending limits should be the same across all the districts, but this finding contradicted the best practices found in the jurisdictional analysis as they all used a formula system. The by-law provides for the following formula:

\$10,000 plus \$1.00 per each person registered on the list of electors in the Candidate's district plus \$1.00 per each square kilometre rounded up to the nearest whole number in the Candidate's district.
Councillors (by district) Mayoral (total Municipality)

The Final List of Electors for the candidates' district in the previous election will be used to calculate limits at the beginning of contribution period, unless the Nova Scotia Utility and Review Board has changed the district boundaries, then their decision containing estimated elector counts, and finalized district boundaries shall be used. Should Council enact the proposed by-law, the spending limits as indicated in Attachment B will apply for the 2020 Municipal Election, and would be posted to the municipal website. The final numbers are then rounded up to the nearest 100th dollar.

Maximum Spending Limit for Mayoral Race (City-Wide) \$304,200.00

Average Maximum Spending Limit for District Councillor \$28,400.00

Disclosure, Reporting and Surpluses

Accountability and transparency were themes throughout the public consultation. It was indicated that these themes could be strengthened by increasing disclosure requirements within the election process. After reviewing the jurisdictional scan and current campaign finance provisions in the MEA, staff are proposing changes to augment disclosure.

Pursuant to Section 70 of the MEA, a candidate shall, on becoming a candidate, file with the Clerk an appointment of official agent or a declaration that the candidate will personally act as the official agent. At present there is no disclosure with respect to the appointment of an agent. Although candidates may publicly declare their intentions, there is no repository for the public to check before contributing. It is recommended that the appointment of agent forms filed with the Clerk be made public by posting a redacted copy to the municipal website. In addition, the candidate could provide contact information to the Election Office to receive updates in advance of the nomination period, and to populate a municipal web-listing with candidate contact information. It is anticipated that the web-listing would be populated when agent forms are filed, and updated after nominations close to confirm those who have officially filed nominations.

Building on the procedures in the MEA, the proposed by-law would require that every person who has filed the forms appointing an agent would also be required to file a Statement of Campaign Contributions & Expenditures and a Statement of Campaign Surplus with the Municipal Clerk's Office. These forms would be developed by the Returning Officer and made public in advance of the commencement of the contribution period. These forms will compliment the existing Form 40, Candidate's Campaign Disclosure Statement, which is required by the MEA. The form will define the candidate's contribution period (that will align with the filing of appointment of agent forms), what contributions have been received, when and how those contributions were spent and whether there was a surplus. An example of the new form is attached as Attachment C.

It is proposed that any surplus of campaign contributions that were not used during the contribution period on eligible expenses be donated to a non-profit organization or held "in trust" by the Municipality for the candidate's use during the next regular Election. The surplus amount and what is determined by the candidate in terms future disposal of the surplus shall also be made public by posting to the municipal website. If the candidate decides to donate their surplus contributions to a non-profit organization within

sixty (60) calendar days after the election, they may be entitled to receive a tax receipt from the non-profit organization for such donation.

If the candidate places their surplus contributions “in trust” and decides not to run for the next two regular elections, or requests to dispose of the surplus at any time during that period, the surplus shall be forfeited to the Municipality, and the Municipality shall direct the funds to a non-profit organization as set out in the candidate’s Statement of Campaign Surplus. The non-profit organization to which the funds are directed could be the Municipality if the candidate so chooses. The Municipality would then issue a confirmation to the candidate that the funds have been directed. A candidate’s ability to receive a tax receipt in this case would be dependent on specific advice provided by CRA and can be discussed with candidates at the time of the completion of their Statement of Campaign Surplus.

Included in the proposed by-law, Statements of Campaign Contributions & Expenditures and Statements of Campaign Surplus shall be made publicly available. This publication of forms is in accordance with the current practices under the MEA where campaign contribution forms (Form 40) are made available on the Municipality’s website with the contributors’ names and contribution amounts included. The only portion of this form that is redacted is the contributor’s address, which will be mirrored through the publication of the statements under this by-law.

Implementation and Transition Period

Prior to this by-law coming into effect, it is possible that candidates for the next municipal election may have begun to collect contributions. The MEA does not outline a timeframe to collect contributions, which could result in a potential candidate filing the forms to appoint an Agent and beginning to collect contributions at any time.

The proposed by-law includes a transition section outlining that any candidates would need to cease collecting and expending funds once the by-law comes into effect. Candidates can resume collection or spending, when the contribution period begins for the next election, and the appropriate paperwork is filed with the Clerk. Any funds expended prior to the by-law coming into effect would need to be reported (with appropriate dates) on the Statement of Campaign Contributions & Expenditures and would count towards the overall spending limit for the 2020 election. Contribution limits by individuals will not be enforced before the by-law comes into effect.

Complaint Process

As the Municipality would be introducing a by-law that complements existing provincial legislation, any contraventions would be initially reviewed by staff within Planning and Development by way of By-law Standards, and if required may be referred to Halifax Regional Police (HRP) for further investigation.

The proposed by-law establishes that complaints would be received by the Municipal Clerk’s Office within ninety (90) days of the deadline for Statement of Campaign Contributions and Expenditures. The complaint would then be reviewed by By-law Standards, and if necessary may be referred to HRP. Given the complex and high-profile nature of any such investigations, an impartial and thorough financial analysis may be entailed. Should legal action be required, staff will work with outside legal counsel to address any possible charges or fines and to address potential conflicts of interest.

Staff have reviewed various fine provisions in the MEA, and are recommending that contraventions to the proposed by-law, a penalty from five hundred dollars (\$500), and not more than ten thousand dollars (\$10,000) and in default of payment, to imprisonment for a term of not more than six (6) months.

Review Period

The approach within the by-law is new to the Municipality and will provide a learning opportunity for staff and candidates during the next election. After the 2020 regular election, the Election Office will undertake

a review. If required, staff may provide recommendations and present potential amendments to Regional Council, by way of the Executive Standing Committee.

Use of Corporate Resources Policy

The proposed by-law removes the ability for corporations to provide cash or “in kind” contributions to municipal candidates. To complement this approach, other jurisdictions have established policies outlining rules on using corporate or municipal resources for election campaign purposes. Specifically, municipalities would be in contravention of their own campaign financing by-law, if they permitted councillors who were running in an election to use municipal assets or resources for campaign purposes as those resources may be considered an “in kind” contribution by a corporation.

To address this issue, the Election Office developed a jurisdictional scan of policies on use of corporate resources by candidates during elections. A jurisdictional scan of these policies has been completed and attached to the report as Attachment D. Specifically, the Ontario *Municipal Elections Act* outlines that municipalities are prohibited from making contributions in any form to a candidate’s or third-party advertiser’s campaign.

All the policies considered on this topic limit how candidates may use corporate resources with an emphasis on IT assets, infrastructure and data. Given the prevalence of technology and its overlap between an individual’s personal and professional lives, other jurisdictions have deemed it necessary in their policies to have separate sections devoted solely to the use of technical assets (i.e., computers, cell phones, printers, databases). The jurisdictional scan also emphasized the need for rules around the use of corporate facilities by candidates and campaigning at corporate events.

Based on the review conducted, staff recommend that Regional Council direct staff to develop a Use of Corporate Resources during an Election administrative order, to define roles and expectations, and provide clarity to members of Council, staff and the public.

Concepts Explored but not Actioned

Tax Receipts for Political Contributions: Currently, political contributions are not eligible for tax receipts under the *Income Tax Act (Nova Scotia)*. Allowing municipalities to issue tax receipts to campaign contributors would require a legislative amendment to the *Income Tax Act*, which would subsequently apply to all municipalities in Nova Scotia. Such an amendment could result in an unfair burden on smaller municipalities that do not necessarily have the staff resources to issue tax receipts.

Public Funding: The topic of public funding (i.e. using municipal funds) for an election campaign, garnered much discussion in the public consultations. Proponents suggested using public funding would aid in addressing participation barriers by ensuring that potential candidates have access to the resources needed to run an effective campaign. Tied into regulations around contribution and spending limits, public funding would also limit the advantage experienced by candidates with greater resources at their disposal. However, the public consultations found limited support among residents for public funding towards political campaigns. When asked whether a portion of candidate’s campaigns should be funded by the Municipality, 64 percent of participants responded negatively. There was also acknowledgement of how much oversight and resources that could be required if public funds were used.

FINANCIAL IMPLICATIONS

There are no direct financial implications for the Municipality. Should there be a number of candidates with surpluses that they wish to keep in trust, there will be a small administrative cost to the Municipality. However, this cost is likely to be minimal. In preparation of this report, Financial Services was consulted, and did not indicate any concern with holding funds “in trust” for candidates. Should Regional Council adopt the by-law, the Municipal Clerk’s Office will work with Financial Services to ensure that the appropriate trust forms and guidelines are created for the 2020 Municipal Election.

RISK CONSIDERATION

There are no risks associated with the adoption of this by-law. There may be reputational risks to the Municipality should Regional Council choose not to pursue adopting a campaign financing by-law, as there has been extensive public consultation conducted.

COMMUNITY ENGAGEMENT

In March 2017, Regional Council approved a campaign finance accountability engagement strategy, and directed staff to undertake public consultation. It was anticipated that the public consultation would inform the draft by-law. Staff engaged with an external communications and engagement firm, and Corporate Communications to develop and execute the public consultation. Work was completed to ensure that materials were produced in plain language, that the public were provided with multiple ways to engage, and that the materials and approach did not have keep pre-conceptions or bias.

Stakeholder Engagement

In late May 2017, the public consultation process began with pre-engagement focus groups with Councillors, previous candidates, and their official agents. Results from these stakeholder consultations helped to inform the direction for the three public consultation sessions, and the materials that were presented online. The main take away in completing these sessions, was that one focus area could not be addressed in isolation, as they were interconnected. The feedback received focused on the application of the current provisions in the MEA, and how changes could be applied in a practical sense.

Shape Your City Halifax – Campaign Finance Accountability

The Shape Your City Halifax webpage for Campaign Finance Accountability was launched on June 2017 and represented a collaboration between the Municipal Clerk's Office, Corporate Communications and the external facilitator. Aimed with framing the discussion, a background guide was created. The guide was organized by the focus area, in accordance with the HRM Charter amendment (listed below). Each section provided the current view, introduced focus questions, and outlined key considerations. In addition, a cross Canada jurisdictional scan featuring campaign finance legislation, organized by focus area was provided, as well as the applicable Nova Scotian provincial information.

- 1) Who Can Contribute?
- 2) Maximum Contribution Amounts
- 3) Campaign Contribution Timelines
- 4) Maximum Spending Amounts
- 5) Disclosure, Expenses, Surpluses and Deficits

In addition to the background guide the Shape Your City Halifax site also featured two surveys. One survey dealt with campaign finance accountability, and the other focused on customer experience and the 2016 Municipal Election. A document library was also provided which featured all documents produced for the engagement sessions, and the facilitator's update and final reports.

In late May 2017, promotion on the opportunities to provide input on campaign finance accountability was transmitted by print and social media. On June 1, 2017, The Shape Your City Halifax webpage was launched, featuring the background materials, opportunities to attend in public, and the two online surveys. The surveys were open from June 1 through to June 27, 2017. Three facilitated sessions were held and placed strategically throughout HRM. In addition, a stage-share with the Green Network Plan consultation was held, featured a brief introduction to campaign finance, and information cards highlighting the two remaining facilitated sessions were provided to participants.

- June 7, 2017 – Facilitated Session held in Dartmouth
- June 12, 2017 - Stage Share – Attended the Green Network Plan in Eastern Passage
- June 14, 2017 - Facilitated Session held in Halifax
- June 22, 2017 - Facilitated Session held in Bedford-Sackville

Public Engagement Results

The public engagement process was met with moderate public interest with 28 residents attending in-person facilitated sessions (including stakeholder sessions). The sessions were organized to allow for multiple ways for participants to engage, it featured a facilitated discussion, break out sessions, and a world café portion wherein participants were encouraged to move around the room and provide comment. In addition, a live draw mural was commissioned, and conducted at each session. This method helped to amplify what was occurring during the session, as it captured what was being said, the atmosphere, and the voices of the attendees. It was anticipated that participants would use the live draw method to support their understanding of the material and the conversations that occurred.

The online survey garnered 716 respondents, however there were some items where respondents were divided on. Below is a summary of the feedback received from participants and respondents on the five key focus areas, the comments were reviewed and grouped by theme by the external engagement consultant, a summary was provided in the Campaign Finance Accountability Engagement Report which formed part of the documents library previously discussed.

Who Can Contribute?

- Supported contributions from individuals, candidates, and their family members
- Demonstrated mixed support for contributions from not-for-profits and trade unions
- Did not support contributions from businesses, corporations, and developers
- Did not support campaign funding provided by taxpayer dollars

Maximum Contribution Amount

- Strongly supported limits on contributions
- Voted for maximum contributions of between \$101-\$500 followed by \$501-\$800 per contribution
- Suggested contribution limits be based on an analysis of actual campaign costs and raising funds
- especially in rural areas, when setting contribution limits

Campaign Contribution Timelines

- Strongly supported a defined campaign timeframe
- Demonstrated no consensus on a desired timeframe

Maximum Spending Amounts

- Strongly supported a limit on campaign expenditure
- Demonstrated mixed support for calculating spending limit amount with some respondents wanting the same limit for all districts and others wanting geographic size and population of a district to be considered when calculating the spending limit

Disclosure, Expenses, Surpluses and Deficits

- Strongly supported reporting of disclosures publicly online and in real time so electors have access to inform their vote

- Desired clear guidelines regarding surpluses
- Demonstrated mixed support for the donation of all surpluses to charity

Providing the public with the next steps, and information on the by-law adoption process was a key take-away at all consultations, and documentation produced. Participants expressed some frustration that they did not have a draft by-law to use as a starting point. In response, it was noted that within the process the Election Campaign Finance report and accompanying by-law would be presented to the Executive Standing Committee, to afford for the public to be able to attend and provide feedback through Public Participation portion of the meeting.

ENVIRONMENTAL IMPLICATIONS

Not Applicable.

ALTERNATIVES

The Executive Standing Committee may refer the proposed Campaign Financing by-law, or portions back to staff with instruction, for a supplemental report.

Executive Standing Committee may decide not to adopt proposed By-law C-1100, the Campaign Financing By-law.
