Subject: RE: CPED

Hello Liam,

Just checking in to make sure that we are still on the agenda for the CPED meeting next Thursday? Is that meeting still a go?

I plan today to review the process and documents, as sent to me previously. Am I right to think that I need to send you a summary of what will be discussed and desired outcomes? Then, I can bring along a short presentation and a handout for attendees (that will become part of the public record)?

If so, our discussion points are: that we are looking for a new site, we are looking for other support, and have some thoughts on food related policy. The outcomes we are hoping for are direction to staff to explore the potential of a new site for Common Roots, as well as other support for our move. The outcome for policy suggestions are that these are taken into consideration in the Centre Plan and Food Charter adoption.

Thanks Liam
warmly
jayme
