Subject: [External Email] Transportation Standing Committee

[This email has been received from an external person or system]

Hello Phoebe,

I am writing on behalf of Leading with Transit to request an opportunity to present to members of the Transportation Standing Committee.

Over the past year, Leading with Transit has formed a broad coalition of community partners. Through a series of public forums, we have worked with HRM community members to establish a set of guiding principles and a vision for a long-term transit strategy in HRM.

Here is a link to our [background documents](#).

We believe transit has a critical role in shaping our community, and would like to share our vision with Committee members. I would look forward to hearing your thoughts and learning how we might proceed with this.

Thank you,

Jennifer Getz, MCIP
