**Subject:** Request to present at Environment and Sustainability Standing Committee

Good afternoon Richard,

Thank you very much for meeting with Sean, Kaelen and I this morning to talk about about expanding the Solar City finance mechanism to energy retrofits. It was an informative and exciting conversation.

I would like to formally request to present to the Environment and Sustainability Standing Committee in either May or June. Please let me know if this is a possibility.

Warm regards,  
Emma

PS – You had mentioned capital investments to reduce GHGs. I want to plant a seed for future projects by sharing this video with you: <https://energiesprong.org/>
