all equipment and packing up to nine boxes each day of all supply equipment required in the schools. The inspectors have delivered this to the schools in time for the 9 o'clock clinic daily.

The whole programme organized as quickly as it has been, has run smoothly and everyone has fallen in line and co-operated one hundred per-cent.

I feel, at the time of writing, that we will be able to give the vaccine to all children having Signed Consent Forms. Total figure is almost impossible to estimate at the present time, but will, I hope, approximate 5,000 as we set out to do.

Respectfully submitted,

Allan R. Morton, M.D. C.M., M.P.H.
Commissioner of Health and Welfare.

Both City Manager and Alderman Macdonald said the Commissioner of Health should be commended for his work in this respect.

Dr. Morton: "An article appeared in the press that a child in Michigan developed polio after 2 doses of vaccine and parents changed their minds from yes to no".

The Chairman: "Are family Doctors being consulted?"

Dr. Morton: "They were flooded. They were all in favor of it. Doctors own children have been done."

ACCOUNT MISS ADELAIDE E. MACLELLAN

June 9, 1954.

Chairman and Members
Committee on Public Health and Welfare.

Gentlemen:

I am attaching a copy of a letter from Miss Camillus E. MacLellan asking that she pay the City \$105.72 as full payment of her sister's account at the Nova Scotia Hospital amounting to \$255.00.

Notification did not reach my office that this patient was to be transferred or charged to the City. During the time I was away ill last year, she was kept in the Nova Scotia Hospital at the \$3.00 per day rate and this account was only picked up and the transfer made after the City had received the bill from the Nova Scotia Hospital.

Under these circumstances, I feel that this request should be granted.

Respectfully submitted,

Allan R. Morton, M.D. C.M., M.P.H.
Commissioner of Health and Welfare.

Moved by Alderman Kitz, seconded by Alderman Vaughan that the report be approved. Motion passed.
