

August 9th, 1915.

of the "Nisbet" properties.

WATER SUPPLY FOR TROOP SHIPS.

*Engineer ✓  
club to works ✓*

The Clerk of Works through Controller Murphy, on behalf of T. A. S. DeWolf & Son, requests that the troop ships at present at the Deep Water Terminus for the purpose of speedy service be supplied with water by the City through the fire hydrant instead of through meter. The quantity supplied to be gaged according to the capacity of the tanks filled instead of by meter measurement. Approved.

ABATTOIR.

*Cont-McKeen ✓  
Engineer ✓*

The Board resumes consideration of the proposals submitted by G. A. Wootten for the construction of an abattoir. The following papers are again read namely- letter Heber Hartlen (including scale of charges for slaughtering) submitted June 2nd, 1915 ; report City Health Board covering letter G. A. Wootten and plan submitted August 4th, 1915; letter G. A. Wootten submitted August 6th, 1915 and letter A. T. McLean, Food Inspector Truro, addressed to the Secretary of the City Health Board.

Controller McKeen and the City Engineer are requested to visit the proposed site of the abattoir with Mr. Wootten and to submit a report to the Board covering information relating to the project with recommendations as to what concessions the City might allow.

STORAGE OF OILS - IMPERIAL OIL CO. PLANT AFRICVILLE.

The proposition of the Imperial Oil Co. for the acquisition of land at Africville as a site for the storage of oil and requesting certain concessions from the City is taken up and after discussion is further deferred.

The Board adjourns.
