Mr J. S. Brown  
Teacher  
Campbell Road School

Sir

The affairs of the Campbell Road school in general, and the non attendance of pupils and the utter <sup>express</sup> want of appreciation of the benefits of education amongst the parents of the children living in the vicinity of the school have reluctantly compelled the Board of School Commissioners to direct me to close the school from this date. You will be paid your salary for the past month which settles all your claims against them. I am further directed to notify you to have all the property belonging to the Board including fuel on hand returned at once to the office. As soon as this is done your cheque for salary will be paid to you. Please hand over the keys of the office to the Board in all rooms to the trustees after the property of the Board is all removed by John R. Miller day del Com
