The number of Pupils, 5104 registered at school during the term compared with the population of the City by the recent Census shows that one in 5.8 of the population attends the Public Schools some time during the summer

Outside of the city throughout the County the returns give 1 in 5.1 of the population registered at school While rejoicing at the prosperity of the County Districts I do hope to see the time when the City shall occupy its appropriate position as foremost in the work of Popular Education.

The standing of the various schools in the City in respect of the regularity of attendance is shown in the following table. For each 100 pupils there were in regular attendance at the
