RECOMMENDATION

It is recommended that Halifax Regional Council adopt the amendments to Administrative Order 50, the *Disposal of Surplus Real Property Administrative Order*, as set out in Attachment 2 of this report.

BACKGROUND

On April 9, 2013, Council approved Administrative Order 50 (AO50) for the disposal of surplus real property. Administrative Order 50 provides a standardized disposal approach by bringing before Regional Council — via surplus property reports — candidate properties for review and decision with respect to: (1) surplus status; and (2) category of disposal method. Now, review of proposed properties and their approval as surplus include the following steps, as per AO50:

1. *All Business Units, as part of their business planning, will identify any municipal properties that are surplus to operational requirements. Upon completion of the Business Unit review and identification of operationally surplus property by the Business Unit owner, Corporate Real Estate staff shall undertake an interdepartmental review and categorize the nature of the inventory of potentially surplus properties and list them by category:*
 - *Economic Development*
 - *Community Interest*
 - *Ordinary Sale*
 - *Remnant*
 - *Extraordinary*
 - *Inter-Governmental Transfer*
2. *Local Councillor and Community Council will be informed of the inventory of properties and the proposed categories by staff. As a matter of practice, property information packages will be distributed to Councillors for feedback.*
3. *A Surplus Property Report to Council will be prepared, containing recommended properties to be declared surplus, with recommended categorizations and disposition methods. Council may approve the recommendations, may remove any property from any list, and may move any property from one category list to another, and may declare the list of properties, or any individual property, surplus to the Municipality's requirements.*
4. *Corporate and Customer Services will report operating costs and the status of surplus properties through the Audit and Finance Standing Committee twice per year.*

DISCUSSION

This report responds to Council's request to create a new Affordable Housing Category within Administrative Order 50 (AO50), Respecting the Disposal of Surplus Real Property, as well as a minor housekeeping amendment respecting the review of potentially surplus properties.

As additional background, Section 6.3 (Affordable Market Housing) of the Municipality's Regional Centre Secondary Municipal Planning Strategy (Package A), supports this proposal through Policy 6.4, which states, "To support the maintenance and expansion of affordable non-market housing, the Municipality may: (e) consider the use of surplus municipal land for affordable non-market housing."

The proposed category would permit Regional Council to designate surplus property, with the potential to be used for affordable housing purposes, for sale at below-market-value disposal, subject to the

requirements of Section 63 of the HRM Charter (see fully quoted reference above, under Legislative Authority.)

After property is declared surplus by Reginal Council and categorized as Affordable Housing, the property would then be the subject of a call for submissions or direct sale process open to eligible not-for-profit organizations meeting the submission requirements and criteria established from time-to-time by the Planning and Development Business Unit. The amendments would be effective on March 1, 2021 to allow staff time to develop the submission requirements and program criteria necessary to implement them.

It is recommended that Administrative Order 50 (AO50) Respecting the Disposal of Surplus Real Property be amended as per Attachment 1 of this report, as proposed and **highlighted** below:

POLICY STATEMENT AND CATEGORIZATION

2. (2) *The Municipality will dispose of real property Council determines is no longer required for the purposes of the Municipality. Staff will identify surplus properties by the following categories:*

- (a) Economic Development*
- (b) Community Interest*
- (c) Ordinary Sale*
- (d) Remnant*
- (e) Extraordinary*
- (f) Intergovernmental Interest*
- (g) Affordable Housing***

Properties known to have potential for residential development respecting types of dwelling units and types of residential uses, where, in the opinion of Council:

(i) community need, supportive infrastructure, and conditions for affordable housing are demonstrable, or

(ii) there exists

A. a higher market value cost for housing in certain areas, neighbourhoods or districts of the Municipality as compared to the rest of the Municipality, or

B. a scarcity of housing types or residential uses,

that limits property ownership or tenancy in the area where the property is located, or,

(iii) the:

A. future growth in any given area is anticipated to create demands for housing, and

B. housing options through proposed development appear to be limited in variety and financial accessibility, and

C. consideration for affordable housing would reasonably arise.

DISPOSAL METHODS

4. *Following Council approvals under Part 2, staff shall proceed to dispose of the properties as determined by category.*

Affordable Housing

(5) This category of properties shall be disposed of through direct sale, or a call for submissions, open to eligible not-for-profit organizations meeting the submission requirements and program criteria established from time-to-time by the Director, or their designate, of the department of the Municipality that is responsible for planning and development.

FINANCIAL IMPLICATIONS

There are no immediate, direct financial implications to the recommended amendments to Administrative Order 50, Respecting the Disposal of Surplus Real Property. Any implications relating to financial risk are discussed in the Risk Consideration section of this report.

RISK CONSIDERATION

The new Affordable Housing Category has potential to incur financial risk for the Municipality in the form of the opportunity cost of reduced revenue. The amount of foregone revenue is the difference between a property disposal that would be at market value less the value of the below-market sale as approved to qualifying affordable housing buyers/non-profit organizations. Management of such risk will be through the Municipality's affordable housing initiatives, the criteria and processes of which will be established by the Planning and Development Business Unit, and ultimately by the decisions of Regional Council.

Additional risk may arise in the form of competing interests among qualified non-profit organizations for properties that may have the potential to be disposed of under either, Affordable Housing Category or Community Interest Category. Management of such risk will be made collectively by municipal staff mandated to assess and technically review potential surplus properties as to their recommended best public use potential, recommended categorization pursuant to AO50, and ultimately by Regional Council decision.

COMMUNITY ENGAGEMENT

This administrative amendment does not envision nor require community engagement.

ENVIRONMENTAL IMPLICATIONS

Any proposed surplus real property recommended to be categorized by Regional Council as Affordable Housing, will be disposed of in its as-is/where-is condition. However, any known environmental conditions will be disclosed to qualified purchasers who will be expected to exercise their own due diligence.

There are no other environmental implications associated with this administrative initiative.

ALTERNATIVES

No alternatives have been identified for Regional Council's consideration in this matter, with exception to adhere to the status quo, which is not recommended.

POLICY STATEMENT AND CATEGORIZATION

2. (1) The Municipality can acquire and sell real estate within its legislative provisions. Real estate holdings can be a “corporate” asset necessary for municipal functions and purposes of the business units or may be held for particular use of inhabitants of HRM for example, parks and institutional uses. Corporate assets are subject to corporate review by the Asset Owner Business Unit for continuing requirement. Where

the business units of HRM have determined that properties no longer serve an operational requirement of the corporation or otherwise appear to be surplus to the needs of the Municipality, then the policy of disposal to be followed in all cases, excepting municipal property which requires particular process through statute or common law or property available in the Municipal Business Parks, is as directed by this policy of Council.

(2) The Municipality will dispose of real property Council determines is no longer required for the purposes of the Municipality. Staff will identify surplus properties by the following categories:

Economic Development

- (a) Strategic properties having Economic Development potential ought be sold to:
 - (i) maximize use or value;
 - (ii) achieve the attraction of targeted industries and employment or the regeneration of neighborhoods;
 - (iii) to advance development opportunities; and
 - (iv) to generate financial return to the Municipality.

Community Interest

- (b) Properties known to have potential for community use, in particular where:
 - (i) there has been a prior community or institutional use of the property; or
 - (ii) by location or scarcity of available property the consideration would reasonably arise.

Ordinary Sale

- (c) Properties of an:
 - (i) ordinary or routine nature;
 - (ii) which no longer have a municipal purpose.

Remnant

- (d) Properties which are remaining or subdivided lands which:
 - (i) by nature of their size or dimensions have limited or no reasonable use;
 - (ii) but which may have utility for abutting property owners, and can be disposed under s. 64 of the HRM Charter allowing Council to set a price that is less than market value.

Extraordinary

- (e) Properties having a legal distinction which include conditions or extraordinary process with respect to their preservation or disposal including but not limited to:
 - (i) the Halifax Commons;
 - (ii) the Dartmouth Commons;
 - (iii) streets;
 - (iv) any municipal properties, including parks, which are held in trust, or upon condition, or with reserving interests, or like constraints;
 - (v) and parkland acquired through subdivision process.

Intergovernmental Transfer

- (f) Properties requested by another level of government which:
 - (i) will be used for a public purpose; and
 - (ii) sold for market value.

Affordable Housing

- (g) Properties known to have potential for residential development respecting types of dwelling units and types of residential uses, where, in the opinion of Council:
 - (i) community need, supportive infrastructure, and conditions for affordable housing are demonstrable, or

(ii) there exists

A. a higher market value cost for housing in certain areas, neighbourhoods or districts of the Municipality as compared to the rest of the Municipality, or

B. a scarcity of housing types or residential uses or uses,

that limits property ownership or tenancy in the area where the property is located, or,

(iii) the:

A. future growth in any given area is anticipated to create demands for housing, and

B. housing options through proposed development appear to be limited in variety and financial accessibility, and

C. consideration for affordable housing would reasonably arise.

PROPERTY REVIEW AND DECLARATION OF SURPLUS

(2) All Business Units, as part of their business planning, will identify any municipal properties that are surplus to operational requirements

(3A) Corporate Real Estate will contact Legal and Risk Management Services and request a title report as part of the review for any property categorized as Community Interest Property.

(4) Local Councillor and Community Council will be informed of the inventory of the properties and the proposed categories by staff. Local Councillor will then have the opportunity to contact local community to discuss potential surplus properties to gauge interest in potential disposal methods for the properties with area residents. The result from these potential community consultations will then be included in the surplus property report that comes to Council.

(5) Corporate Real Estate staff will prepare a Surplus Property Report to Council which will attach lists of properties by category. The report will recommend that all lists of properties should be declared by Council to be surplus property, that each category be approved by Council, and that the disposal method recommended for each list under this policy be approved by Council.

(6) Council may approve the recommendations, may remove any property from any list, and may move any property from one list to another list, and may declare the lists, or any of them, surplus to the Municipality's requirements.

(b) Council rejects all the complete applications the Municipality received from eligible non-profit organizations.

(2) If subsection 1 applies, notwithstanding Administrative Order One respecting rescission, Council may by majority vote:
