

## ITEM 9.1.1 Received March 1, 2021

As part of the approved Operations Plan for Point Pleasant Park, we are going to address the outdated signage in the park and would like input from the Point Pleasant Park Advisory Committee.

Some signage will simply be replaced with the newer corporate branding, while others may need to be re-worded or have additional information added.

This page and the next show the signs that will just need to be updated and re-branded:

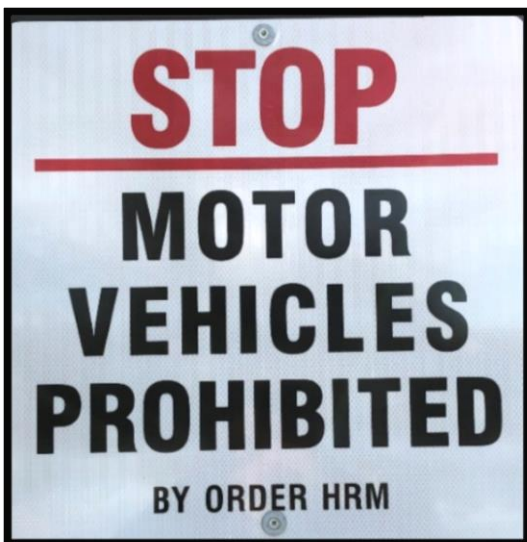

Items for discussion:

There are 4 entrances accessible by vehicle: both lower and upper parking lots, and at either side of the fountain at the end of Young Ave. Recommend installing this first sign at each entrance, and eliminating the second one altogether:

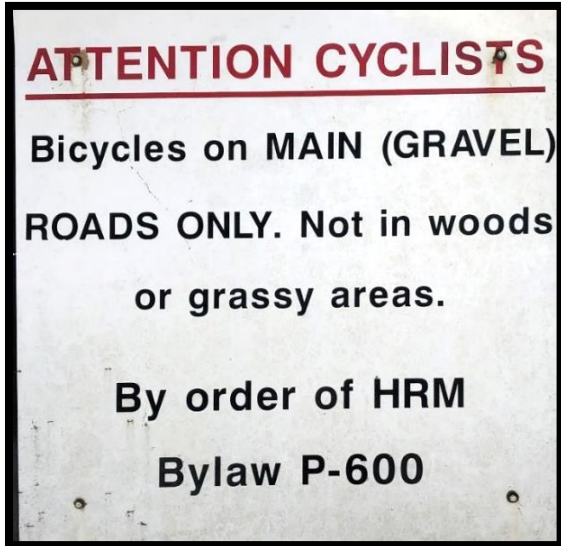

No need for this sign (redundancy).

There have been issues surrounding clarity of the weekend bike route. Particularly do we need to sign each entrance stating, "no bikes on weekends at this entrance". Should there be reference to the fact there is a weekend route?

Also need to reference ebikes and scooters. Would these signs be the proper place?

Dogs along Sailor's Memorial Way. There has been confusion as to if this just means the roadway itself or is it to include the shore (fields) area as well. As seen on the park maps it is to include ALL areas beyond the signage. This should be made clear on this signage, perhaps saying "NO DOGS BEYOND THIS POINT" after 10 am, or should it reference shoreline specifically?

This combination sign is currently at many of the park entrances and references dog etiquette, weekend bikes, fires and the Parks by-law. Recommend removing these altogether and placing the most relevant individual signs at each entrance.

Question for discussion: Is there a need to list proper dog etiquette when there's a whole by-law dealing with this? Park staff do feel it is still necessary.
