

Construction and Demolition Waste Management Plan

The Waste Management Plan must be submitted and approved prior to demo permit issuance.

The Halifax Regional Municipality By-law L-200 requires waste generated by Construction or Demolition activity in Halifax Regional Municipality be transported to an HRM licensed facility for recycling, 75 % of materials are diverted away from landfill disposal. This Waste Management Plan is designed to assist contractors to meet compliance with the L-200 and S-600 By-laws, and provide builders and contractors with a means of ensuring the material are disposed of properly thus increasing the amount of C and D materials being recycled.
