[This email has been received from an external person or system]

Hello Simon,

Thank you for supporting me in steps toward this opportunity for our Smart Meter Project. I will update our presenter Stephen Pothier the Director of Project Implementation and make sure that I have slides submitted to you one week before our pending presentation date of April 15th at 10am. I have advised my group that we will have only 10 minutes to present and I will sort out who our second presenter will be in the coming

Is this a virtual or in person opportunity? We are excited to return to in person and very conscientious in regard to safe practices but I do understand if this is virtual.

The segment of HRM which our Smart Meter Project is working in beginning next month is the Peninsula area; I am pleased to see that Councillor Smith is part of this group as his District is included in this. May an invitation to the meeting be extended to Councillors Mason and Cleary? I do realize they may not wish or be able to sit in but I would like to let them know; I will follow your lead on what you think is best for this.

Thanks Simon.
