

NOTICE

SPRING GARDEN ROAD STREETScape PROJECT

WATER SERVICE INTERRUPTION & NIGHT WORK

Work being performed on the water main requires a temporary shutdown of the local water service on Spring Garden Road between Grafton Street and Dresden Row. The interruption to the water service will take place during the following period (unless it is forced to be rescheduled due to weather or unforeseen conditions):

Thursday, July 15th from 7:00 PM to 6:00 AM on Friday, July 16th

We recommend that any water required during this period be stored in advance – please fill appropriate containers so you will have sufficient water for drinking and cooking during this period. As a precautionary measure, customers are advised to turn off their hot water tanks during this time to prevent damage to heating elements should the water be inadvertently drained from the tank.

If you have a sprinkler system, please inform your system monitoring company as the service interruption may cause the sprinkler panel to go into alarm.

Residents are advised that the Halifax Regional Municipality has granted a Noise By-Law Exemption to complete this work at night and construction noise will occur. We apologize for any inconvenience this may cause.

Customers in the area may experience discoloured water following this repair. Customers who experience discoloured water should run the COLD water at one faucet for about 10 minutes. You should see the water clear. Do not use the hot water faucet since this will draw discoloured water into your hot water heater/tank, which could make the problem worse. If the water fails to clear after 10 minutes, wait for a few hours and again try running only the cold water.

We will continue to make every reasonable effort to minimize the impact of construction activities on your community and we appreciate your continued patience and cooperation.

If you have any questions or inquiries throughout the duration of this project, please feel free to contact Brad Wheby, Project Manager, at 902-880-3200.
