Added Item (Submitted to Municipal Clerk's Office by Noon Monday)	
Date of NWCC Meeting: September 13, 2021	
Subject: Improvements to Lucasville – Hammonds Plains Intersection	
Motion for consideration: That North West Community Council direct the Chief Administrative Officer to return to North West Community Council with a report on the intersection of Hammonds Plains and Lucasville roads to include: <ol style="list-style-type: none">1) Recommendations to upgrade the intersection to ease the congestion of both west bound and east bound traffic;2) Appropriately plan for transit in this intersection;3) Increase pedestrian safety in this intersection;4) Recommendations on lifting the restrictions of Schedule J to permit new connector roads off Hammonds Plains.	
Reason: Traffic is often at a standstill during rush hours on Hammonds Plains road and backed up for many kilometers, however, the congestion is now occurring outside the commuter rush hours. The west bound traffic turning right hold up the traffic and the east bound traffic turning left hold up the traffic flow. The future transit route on Lucasville Road will require a more effective intersection.	
Outcome Sought: A staff report on recommendations to upgrade the Lucasville Hammonds Plains intersection mobility for traffic, transit, and pedestrians.	
<i>Councillor Pam Lovelace</i>	<i>District 13</i>
