Subject: [External Email] Request to present to ESSC

[This email has been received from an external person or system]

Hello Haruka,

Please consider this email my request to present at the Environment and Sustainability Standing Committee during the next available time slot, at the discretion of the Committee.

I would like to present on the importance of wetland conservation in the health of the Blue Mountain-Birch Cove Lakes wilderness area. I will be presenting on behalf of Ducks Unlimited Canada. Here is an outline of my presentation:

- Introduction to DUC, wetland services, and the Wetland Ecosystem Services Protocol tool (WESP)
- Presentation of WESP data for Susie Lake feeder wetland
- Importance of watershed-scale planning and wetland conservation to maintain healthy lakes in BMBCL

Please let me know if you have any further questions,

Emma
