<b>Date of Council Meeting: December 7, 2021</b>		
<b>Subject :</b> Kearney Lake and Little Kearney Lake		
Motion for Council to Consider:  That Halifax Regional Council direct the Chief Administrative Officer to prepare a report for Regional Council on the development of a management plan for Kearney Lake and Little Kearney Lake, with the goal of protecting lake water quality for all users. The management plan should address the sustainability of the multiple recreational uses of the lake.		
<b>Reason:</b> The management plan should address the sustainability of the multiple recreational uses of the lake by private homeowners, increasing numbers of beach goers, Blue Mountain-Birch Cove Lakes trail users, and the MASKWA Aquatic Club, with a special focus on the capacity of the public beach and park. The management plan should also address the need for additional infrastructure such as AT links, washrooms, lifeguards, and better access points, in recognition of the expected 3000-person increase in population at Kearney Lake, with the pending development of Case 20401, Bedford West Sub area 10.		
<b>Outcome Sought:</b> Support of Regional Council that staff prepare a report on the development of a management plan for Kearney Lake and Little Kearney Lake.
