DISTRICT 10 ONLINE NEWS

HALIFAX - BEDFORD BASIN WEST

WARMING CENTRES

There are community-run warming centres located at St. Matthew's Church (Barrington Street) and the Sackville Area Warming Centre (located at Gateway Community Church) that provide a warm space during the day when extreme weather events are occurring (very cold temperatures and/or severe winter storms).

After spending the day inside, individuals would be offered help to find a bed in a shelter for the nighttime. At times, some other local churches and organizations may have pop-up warming centres in other areas of the municipality, including District 10, during extreme weather events.

If you see an individual in need of shelter during extreme weather, please call 211 to connect them with service providers and ensure help is on the way. **But if their life is in danger, please call 911.**

Out of the Cold Community Association says that individuals can also call their shelter anytime to access support and referrals to other community services: **902-830-4821.**
