<b>Date of Council Meeting:</b> 23 August 2022		
<b>Subject:</b> Fire Department Resource Planning		
<b>Motion for Council to Consider:</b> That Halifax Regional Council direct the Chief Administrative Officer (CAO) to provide a staff report with recommendations to ensure current and future land development is being regularly monitored and assessed for impact on fire department resources, and processes are in place to ensure land is being acquired and/or set aside so that future fire stations can be strategically placed and constructed when and where required.		
<b>Reason:</b> With housing development becoming a top priority for both the municipality and the province including developing the nine special planning areas such as the Port Wallace community development, it is important that the municipality continue to monitor housing and population trends and ensure fire services can meet these demands.		
<b>Outcome Sought:</b> Staff report and recommendation on fire service planning based on future population trends.
