THAT Halifax Regional Council request a staff recommendation report with respect to Administrative Order 29, Respecting Civic Addressing Policies, Administrative Order 46, the HRM Asset Naming Administrative Order, and By-law C-300, the Civic Addressing By-law, to allow the possible renaming of Forest Hills Parkway to Sidney Crosby Parkway and staff consider other options for commemoration.

MOTION PUT AND PASSED

October 2, 2018 Regional Council motion (Item 14.1.8)

MOVED by Councillor Nicoll seconded by Councillor Outhit:

During the approval of the agenda this item was deferred to allow for consultation with Mr. Crosby and his family, prior to pursuing any alternatives as outlined in the staff report dated August 27, 2018, and that staff report back to Regional Council once consultations with the family have concluded.

MOTION PUT AND PASSED

May 12, 2020 Regional Council motion (Item 8.2.1)

MOVED by Councillor Nicoll, Seconded by Councillor Hendsbee

THAT Halifax Regional Council request a staff report to add Constable Heidi Stevenson to the Halifax Regional Municipality's Commemorative Names List to honour her bravery and service to HRM and to recommend naming or renaming a municipal asset in the Cole Harbour Area, where Constable Stevenson lived and worked for many years and where her husband and children reside.

MOTION PUT AND PASSED

LEGISLATIVE AUTHORITY

Administrative Order Number 46, Respecting HRM Asset Naming Policies

BACKGROUND

The commemoration of notable citizens is a long-standing tradition in HRM. There are currently two policies that govern street naming and commemoration - Administrative Order 29 (A.O. 29): Respecting HRM Civic Addressing Policies (Attachment A); and Administrative Order 46 (A.O. 46): Respecting HRM Asset Naming Policies (Attachment B).

Regional Council passed two motions to explore recognizing the actions and events associated with Sidney Crosby and Constable Heidi Stevenson.

Civic Addressing Policies

A.O. 29 was approved in 2002 and provides direction to staff and Council on street renaming to ensure consistency and fairness. This policy discourages street renaming unless there are difficulties with the existing name. Within that context, it provides for consideration of renaming under three approval paths. However, none of these approval paths are applicable to the proposal for Mr. Crosby's as described in Attachment A.

Asset Naming Policy

A.O. 46 was adopted in 2010 and provides staff and Council with direction on:

- commemorative naming;
- provides criteria for nominees; and
- identifies the types of assets that are eligible (i.e. streets, buildings, parks, etc.).

The original Asset Naming Policy specified that consideration of nominees could only happen at least one year after their death. That policy was amended in 2015 to extend consideration to living nominees. However, that extension is limited to those who have retired from their field or have accumulated 25 years of volunteer community service.

The Asset Naming Policy also requires that appropriate permission, either by the family of the nominee or in the case of living commemoration from the individual being nominated.

DISCUSSION

Commemorative naming applications cannot be reviewed until the appropriate permissions are obtained. The status of the applications are as follows:

Sidney Crosby

Staff has reached out to Mr. Crosby and his family regarding his participation in the commemorative naming program but were unable to obtain the appropriate permissions at this time.

Constable Heidi Stevenson

Staff have not received confirmation from Heidi Stevenson's family regarding the addition of Constable Stevenson's name to the commemorative names list for future use on a municipal asset in Cole Harbour. However, it has been brought to our attention that the RCMP are finalizing the details on a memorial to Constable Stevenson in the Kiwanis Centre Beach & Park Morris Lake located at 759 Caldwell Rd.

Commemorative name applications for Mr. Crosby or Constable Stevenson can be submitted at any time for review by the Commemorative Names Committee.

FINANCIAL IMPLICATIONS

There are minimal costs associated with the administration of HRM's Asset Naming and Street Naming Policies. These costs can be accommodated within the existing 2022-2023 operating budget for C340 Heritage and Planning Information Services within Planning and Development.

COMMUNITY ENGAGEMENT

The community engagement process is consistent with the intent of the HRM Community Engagement Strategy. The level of community engagement is ongoing and is achieved through promotion online and the creation of printed marketing material and engaging local interest groups. Any member of the community is welcome to submit commemorative name applications, with the appropriate permissions, for placement on assets within HRM.

6. When considering renaming a public street or private road, the Civic Addressing Coordinator shall choose a solution that addresses public safety concerns and shall also have regard for the following:
 - a. the potential confusion created for emergency and other municipal services, commercial delivery services, and the traveling public by renaming the street;
 - b. the number of residential units affected and potential costs to residents/owners;
 - c. the number and type of businesses affected and potential costs to

10. Where there is no public safety issue involved, an owner may request a numbering change as long as a new whole number is available but shall be charged a fee in accordance with Administrative Order #15.
11. When considering the renumbering of all or part of a street, the Civic Addressing Coordinator shall choose a solution that addresses public safety concerns and minimizes the disruption to the affected residents and property owners.

GSA Renaming\Redelineation

13. Communities at risk of being affected by major changes in GSA boundaries shall be informed, and consulted before, during and after the process.
14. Notwithstanding Policy 13, the Civic Addressing Coordinator shall ensure that where a road is built or extended across a GSA line and the sole access is through a single GSA, the boundary of the latter GSA shall be redelineated to include the street and all lots accessing it as shown in a Final plan of subdivision.

Notification

15. The Civic Address Coordinator may extend the deadline for implementation of a civic address change to a maximum of 180 days at the request in writing of a majority of property owners/occupiers.

Schedule A Street Naming Guidelines

General Principles

Uniqueness – there should be no duplication of names.

Distinctiveness – names that sound very similar should be avoided in order to avoid diction problems when people are making emergency calls under stress

Continuity – a road running in one direction should have one name only and should have the same name throughout its entire length.

Guidelines

- A12. A cul-de-sac shall have a different name from its cross road.

Water Access

- A13. Where access to a property is by water only, the street name shall be deemed to be the name of the island or waterbody as listed in the Nova Scotia Gazetteer.

Heritage Names

- A14. The use of heritage names shall be encouraged.
- A15. All street names for the community of Bedford (Municipal District 21) shall confirm with the former Town of Bedford Street Naming Policy (1987)¹.

Theme Names

- A16. Where street names in a neighbourhood are based on a specific theme, the name of all new street within the neighbourhood shall be consistent with the theme.

¹ This policy is currently administered by the Development Officer for the Central Region

Schedule B Civic Numbering Guidelines

General Principles

Sequentiality – numbering should generally start from the lowest numbered intersection and numbers should be assigned in ascending order.

Uniformity – numbers should be proportionately spaced along the entire length of a street to help in finding the general location of properties.

Uniqueness – each individual dwelling unit or commercial/industrial establishment having its own external entrance should have its own whole civic number.

Guidelines

New Streets

- B1. Civic numbers shall be assigned every twenty (20) feet of frontage along both public street and private roads
- B2. Odd numbers shall be on the right hand side and even numbers on the left hand side of street in ascending order from the numbering origin including on cul-de-sacs and other dead end streets.
- B3. Where lot frontage is more than twenty (20) feet, a number shall be assigned as follows:
 - a. corresponding to the approximate centre of the front main wall of the main building or structure on the lot; or
 - b. corresponding to the approximate centre of the frontage for a vacant lot.
- B4. A corner lot or other lot having more than one frontage shall be assigned the number for each frontage until the valid civic number has been determined through the permit process.
- B5. The front entrance of the main building or structure shall be used to determine the valid civic number of corner lots. When the entrance is obscured or if the structure is best reached for emergency purposes by the driveway, the civic number shall be assigned to the driveway.
- B6. Numbers that have negative cultural connotations shall not be assigned. These numbers will be reviewed on a case-by-case basis.
- B7. Fractions shall not be used as part of a civic number.

Existing Streets

- B8. Where a new number is assigned within an existing range of civic numbers, the former municipal standards for issuing the number may be applied in order to maintain consistency in the numbering sequence.
- B9. Where a new number cannot be assigned within an existing range of civic numbers, an alpha suffix may be used and all properties sharing the same number shall be assigned a different sequential suffix to a maximum of four.
- B10. Only the first four characters of the alphabet shall be permitted as part of a civic number.

- B11. Within the Halifax Peninsula, the existing grid numbering system shall be maintained when assigning new civic numbers.

Water Access

- B12. Where access to a property or an island or waterbody is by water only, the numbers shall be assigned along the entire waterfront and the numbering origin shall be the most southerly point.
- B13. Odd numbers shall be on the east side and even numbers on the west side of the island or waterbody in ascending order from the numbering origin.
- B14. Civic numbers shall be assigned every 50 feet of frontage around an island or waterbody.

More Than One Building or Unit On A Lot

- B15. A principal building on a lot shall have its own civic number.
- B16. Each dwelling unit in a semi-detached, duplex, triplex, or townhouse building and each anchor establishment within a commercial/industrial building having its own external entrance may be assigned a separate civic number from the principal building number.
