Hello

I am on the Executive of the Wanderers Lawn Bowls club and if possible we would like to be added to the agenda of the above committee's upcoming meeting. Specifically, with respect to Robert Pace's presentation to the committee about a potential greenhouse for the public gardens we would like the opportunity to address the committee directly in addition to going through the process of engaging with staff as per Councils recent motion. We have had conversations with Councillor Mason and he has indicated his support for our appearance.

Thank you

Mark Singer
