3. Incentive or bonus zoning shall not be required for developments identified on Schedule D if the Development Officer is satisfied that:
 - (a) upon the date of application for a development permit, the applicant for the development permit is a registered not-for-profit organization or registered Canadian charitable organization, and have been registered for at least 1 year

- (b) prior to the date the complete application is received by the Municipality;

 - (c) a minimum of 60% of the development is for housing; and

 - (i) the applicant,
 - (ii) the Municipality,
 - (iii) the Provincial Government,

- 5. Subject to section 3, no development permit shall be issued:
 - (a) where an incentive or bonus zoning agreement is required, until the incentive or bonus zoning agreement is executed by all parties and filed in the Provincial Land Registration Office; or
 - (b) until the full amount of the money-in-lieu is paid to the Municipality or as specified in the applicable development agreement.

Public Benefit Value

- 6. (1) Where an applicant is required to provide incentive or bonus zoning, the value of the public benefits shall be determined in accordance with Section 7 or Section 8.
 - (2) The applicant shall submit a public benefit value calculation with their application for a development permit, in a format acceptable to the Development Officer.
- 7. Except for lands that are greater than 10 hectares under section 8, the minimum required public benefit value shall be calculated by multiplying Factor #1 by Factor #2, and then multiplying the product by Factor #3, where:
 - (a) Factor #1 is the new floor area in square metres that exceeds 2,000 square metres;
 - (b) Factor #2 is 0.20; and
 - (c) Factor #3 is the bonus zoning rate, in dollars per square metre, as specified in Section 11.
- 8. (1) For lands that are greater than 10 hectares that are developed by development agreement, the public benefit shall be determined based on the appraised market value of the site once the proposed plan amendment and associated development agreement is approved by Council, and then multiplied by a coefficient of 0.12.

- (2) The appraised market value is not the market value of the completed project, but the value that the applicant could expect to receive if they sold the site with the development agreement in place.
- (3) Any appraisal under this section shall be completed by an appraiser that is hired by the Municipality.
- (4) The cost of any appraisal shall be paid for by the applicant.
- (5) The terms of reference for the appraisal shall be determined solely by the Municipality.
- (6) Where the Municipality or applicant disagrees with the appraised value determined in the appraisal, the disagreeing party may, at the applicant's expense, have a second appraisal done, and the appraisal is subject to the same terms of reference as the initial appraisal.

9. The appraised market value for the purposes of the public benefit value is:

- (a) where there is one appraisal, the monetary value of the land from that appraisal; or
- (b) where there are two appraisals, the average monetary values of the land from the two appraisals.

Deadline to Complete Public Benefit

10. Any required public benefit shall be completed by the applicant:

- (a) for any money-in-lieu, prior to the development permit being issued; or
- (b) for any on-site public benefit, by the deadline specified in the incentive or bonus zoning agreement.

Bonus Zoning Rate

11. The bonus zoning rate for the area identified on Schedule D is \$66/ square metre, as of April 2022 and shall be adjusted in accordance with Sections 12, 13, and 14.

Bonus Zoning Rate Adjustments

12. (1) The bonus zoning rate specified Section 11 shall be adjusted annually on April 1st in accordance with changes to the *Halifax All-Items Consumer Price Index* released by Statistics Canada.

(2) The bonus zoning rate shall be adjusted using the method specified as follows:

Step 1: The percentage change in the Halifax All-Items Consumer Price Index (CPI) shall be determined by

- (a) using the formula:
 $(A/B \times 100) \text{ minus } 100 = \text{percentage change in CPI}$
- (b) where:

- (i) “A” is the previous year’s Halifax All-Items Consumer Price Index, and
- (ii) “B” is the Halifax All-Items Consumer Price Index for the base year in which this Appendix was adopted, or the year where the bonus zoning rate was last updated through a formal rate update by a trained valuation professional, whichever is later.

Step 2: The percentage change in CPI determined under Step 1 shall then be multiplied by the bonus zoning rate under Section 11.

Step 3: The product of Step 2 shall then be added to the bonus zoning rate, with the resulting sum becoming the new bonus zoning rate for the current bonus rate year

- 13. If the *Halifax All-Items Consumer Price Index* declines or remains unchanged in a given year, there shall be no change in the bonus zoning rate for that year.
- 14. (1) The bonus zoning rate for the calculation of the required public benefit value shall be the bonus zoning rate at the time a complete application for a development permit is received by the Municipality.
- (2) Where the development permit expires and an application for a new development permit is made for the same development, the value of the public benefit shall be the difference between the bonus zoning rate at the time the new complete application is received and the bonus zoning rate previously paid.

Public Benefit: Money-in-Lieu for Affordable Housing

- 15. (1) A minimum of 60% of the required public benefit shall be in the form of money-in-lieu for affordable housing.
- (2) Money-in-lieu accepted for affordable housing shall be required to be used within the Municipality for:

- (2) The remaining 10% of the public benefit shall be in the form of money-in-lieu for affordable housing.
