**Subject:** [External Email] Making a presentation: Transit and Finance ctees

*[This email has been received from an external person or system]*

Morning,

I had so much fun yesterday, that I'd like to come back and do it again. As the president of the Legal Road Users Bicycle Club, I would like to make a presentation about the need for bureaucratic flexibility as it pertains to transportation infrastructure. This presentation will also include a suggestion/request to get a staff report about looking at a different way to fund transportation infrastructure in time for this year's budget process and/or as consideration for a way to fund transportation infrastructure in the planned switch to 4-year budgeting. And can I confirm that this presentation would in fact be 10 minutes, not 5, should this request be approved?

I can be reached here or at [REDACTED] with any questions.

Cheers,

**Matt Stickland**
