**Subject:** [External Email] Request to present to the Council's Environment and Sustainability committee

*[This email has been received from an external person or system]*

Hello,

I am reaching out to you today on behalf of LungNSPEI regarding an opportunity to present to the Council's Environment and Sustainability committee about radon gas. Radon gas is the 2<sup>nd</sup> leading cause of lung cancer in Canada, and the leading cause of lung cancer in non-smokers with an estimated 1 in 4 homes in Atlantic Canada that have tested having levels above Health Canada guidelines.

Today, I met with Councilor Pam Lovelace who recommended I reach out to you regarding this.

The presentation would be an overview of the following:

- What is radon gas and the prevalence in Nova Scotia.
- The health risks of exposure to high levels of radon.
- What can be done to protect Nova Scotians
- What LungNSPEI is doing
- Opportunities for the municipality to become involved

Thank you for the consideration of this request and please let me know if there is any additional information needed.

Lacey
