

Notice of Upcoming Procurements – Mill Cove Ferry Service Project

09.12.2024

It has come to the attention of the Halifax Regional Municipality (HRM) that there is confusion regarding the status of procurement for HRM's electric ferries and associated infrastructure.

HRM **has not** made an award for the design or construction of any electric ferries for HRM or for related infrastructure. HRM is working on the solicitation packages affiliated with the Mill Cove Ferry Service project which will be released for market response in the coming months through HRM's online bidding platform, Bids and Tenders (<https://halifax.bidsandtenders.ca>).

This notice does **not**:

- commit HRM to issue the procurement;
- restrict HRM to a particular procurement approach;
- constitute a call for tender; or
- create any contractual or other legal obligation owed to any potential supplier by HRM.

Should you have any questions or concerns regarding the content of this letter, please contact the undersigned.
