## Item No. 12.1

Halifax Regional Council  
September 10, 2024  
October 1, 2024

**TO:** Mayor Savage and Members of Halifax Regional Council

Original Signed

**SUBMITTED BY:**

\_\_\_\_\_  
Cathie O'Toole, Chief Administrative Officer

**DATE:** August 30, 2024

**SUBJECT** **Regional Subdivision By-law Amendments - Security Options and Inspection Fees**

---

### **ORIGIN**

Staff.

### **EXECUTIVE SUMMARY**

Amendments are proposed to the Regional Subdivision By-law that will reduce red tape and provide financial relief for subdivision proposals involving new public streets and parks. The amendments provide an additional option for provision security, in the form of development bonds, and align the amount charged and method of collection of audit inspection fees with *Administrative Order Number 15 (Respecting License, Permit and Processing Fees)*. The public participation program approved by Council has been completed, there are no budget implications or significant risks associated with the recommendations contained within this report.

### **RECOMMENDATION**

It is recommended that Regional Council direct the Chief Administrative Officer to:

1. Give First Reading to the proposed amendments to the Regional Subdivision By-law as set out in Attachment A, and schedule a public hearing; and
2. Adopt the proposed amendments to the Regional Subdivision By-law as contained in Attachment A.

## **BACKGROUND**

Regional Council approved initiation of consideration of amendments to the Regional Subdivision By-law on December 12, 2023. The amendments include the addition of development bonds as a security option and revise how inspection fees are collected for the installation of primary and secondary services associated with subdivision.

### **Development Bonds**

Marsh Canada Limited, an insurance broker, in discussion with Clayton Developments Limited, has approached staff, requesting consideration of development bonds as a form of security, in addition to the current acceptance of letters of credit, in order to guarantee the installation of municipal infrastructure through the subdivision process.

### **Inspection Fees**

Council approved an amendment to *Administrative Order Number 15- Respecting License, Permit and Processing Fees (Admin Order 15)* to include a standard engineering fee of \$150 per inspection of new infrastructure associated with subdivision proposals. The amendment to Admin Order 15 became effective on September 2, 2023. A corresponding amendment to the Regional Subdivision By-law is required in order to enable the collection of inspection fees as they are conducted and to have them charged in accordance with Admin Order 15.

## **DISCUSSION**

### **Development Bonds**

The Regional Subdivision By-law (the By-law) currently allows the Development Officer to accept security, for the purpose of guaranteeing the construction of municipal infrastructure, to be submitted in the form of letters of credit, cash, certified cheque, or bank draft. The development bond has been described by industry as a practical alternative to a letter of credit. The development bond can be structured to suit the needs of the Municipality as a pay-on-demand security which differs from construction bonds which are default instruments. Some key benefits include the financial assurance to a Municipality that a developer will successfully complete all obligations and the bond may be reduced, and ultimately released, when the infrastructure is accepted.

A development bond provides the Municipality with the same financial assurance as a letter of credit and provides the developer with the benefit of improved liquidity to potentially fund other developments. Many other Canadian cities have begun the practice of accepting development bonds to secure development, notably the City of Calgary and the City of Hamilton.

It should also be noted that the *Halifax Regional Municipality Charter* includes bonds as an option to secure infrastructure through the subdivision process. The intent is to include bonds, as acceptable to the Municipality in consultation with Finance, as an additional form of security for this purpose.

### **Inspection Fees**

The Regional Subdivision By-law currently requires applicants of subdivisions with new infrastructure to pay inspection fees equal to 0.5% of the total cost of primary and secondary services to be installed. This amount is required to be paid prior to a pre-construction meeting to commence construction of the new streets and services. Upon acceptance of the municipal infrastructure and completion of the warranty period, the unused inspections fees are returned.

It is proposed that the By-law be amended to require the \$150 inspection fee as currently set out in Admin Order 15 be paid upon each inspection. Required inspections will be requested, charged and paid through the online Permitting, Planning, Licensing and Compliance system. Collecting fees in this manner would reduce the administrative burden of holding, drawing, and returning funds associated with inspection fees. This will reduce red tape and improve customer service.

## **COMMUNITY ENGAGEMENT**

Regional Council approved the public participation program as outlined in the December 12, 2023 Initiation Report for the proposed amendments, per the following:

*Providing additional flexibility relative to acceptance of security and altering the process for acceptance of inspection fees impacts land developers in HRM. HRM has held preliminary discussions with industry regarding the inclusion of development bonds as security. Many of the major developers and consultants in HRM have been involved in discussions about proposed changes to the inspection fee process. Discussions on both items have been positive and there is support for the inclusion of development bonds and changes to the inspection fee process from industry.*

*Given the broad geography involved and the previous engagement on the matter with industry, the proposed level of community engagement would be consultation through the Development Liaison Group (DLG), and information sharing and invitation for feedback through the HRM website.*

*In addition to this public participation, the HRM Charter requires a public hearing to be held before Regional Council can consider approval of any amendments.*

The community engagement carried out was consistent with the public participation program approved by Regional Council. Staff met with representatives from the development industry through the Development Liaison Group and posted a notice with the proposed amendments on the Halifax.ca website accepting feedback between June 25th, 2024 to July 9th, 2024. Feedback from meeting with industry stakeholders has been positive with many key developers indicating they will use bonding as a security option for infrastructure subdivisions. Industry stakeholders support the proposal of charging per inspection to avoid burdensome carrying costs, overpayment and refunds in the infrastructure subdivision process. No feedback was received from the website posting.

## **FINANCIAL IMPLICATIONS**

There are no financial impacts to HRM associated with the proposed amendments. The HRM costs associated with processing this amendment can be accommodated within the approved 2024-2025 operating budget for Planning and Development.

## **RISK CONSIDERATION**

There are no significant risks associated with the recommendations contained within this report.

## **ENVIRONMENTAL IMPLICATIONS**

No environmental implications are identified at this time.

## **LEGISLATIVE AUTHORITY**

*Halifax Regional Municipality Charter (HRM Charter) - Part IX "Subdivision"*

*Administrative Order 2023-002-ADM (AO-2023-002) - Respecting Public Participation for Planning Documents, Certain Planning Applications, and Engagement with Abutting Municipalities*

*Administrative Order Number 15 (Respecting License, Permit and Processing Fees)*

### **ALTERNATIVES**

1. Regional Council may choose to approve the proposed amendments to the Regional Subdivision By-law subject to modifications. This may necessitate further review, a supplementary staff report and an additional public hearing. If this alternative is chosen, specific direction regarding the requested modifications and amendments is required. A decision of Council to approve amendments to the Regional Subdivision By-law is not appealable to the N.S. Utility & Review Board as per Section 262 of the *HRM Charter*.
2. Regional Council may choose to refuse to approve the proposed amendments to the Regional Subdivision By-law as provided in Attachment A of this report. A decision of Council to refuse amendments to the Regional Subdivision By-law is not appealable to the N.S. Utility & Review Board as per Section 262 of the *HRM Charter*.
