

# The Great "Burglary Mystery" at the City Hall

THE above sketch shows the interior of the City Hall and Inspector Tracey's office, which has been "burglarized" several times within the past few weeks, and quantities of "booze" taken away. The daring "burglars" got in their work notwithstanding the fact that police officers were on GUARD in different sections of the building and were stationed within sight and smell of Inspector Tracey's office—which is located on the Council Chamber floor, between the Council Chamber and the Public Library. Will the Forty Detectives and Sleuth Hounds be able to Unravel this great "Mystery?" The star shown in the sketch indicates the entrance door to the inspector's office.
