# Review of Supplementary Education Funding for HRCE

December 11, 2024

## Background

- Request Council to our office
- Nature of funding Charter driven

#### **Audit Overview**

- HRCE compliant with agreement
- Agreement is thin on details
- Management has access to collect information
  - Do no monitoring

# **Compliance Testing Results**

Contract Requirement	Result
1. 2022-23 annual report submitted to HRM by HRCE included the required information	Compliant
2. Actual amounts spent were reasonably within the proposed budget	Unable to determine – reasonability not defined
3. Detailed expense information provided by HRCE appear reasonably in line with contract	Mostly compliant

## **Annual Reporting Testing Results**

Annual Reporting Requirement	Result
1. Summary of the program supported by the funding	/
Program outcomes: (a) Number of students who had the opportunity to receive enhanced fine arts programming in their classes by family of schools and grade level	✓ /
(b) The enrollment in optional fine arts programs by grade, age and family of schools	✓
(c) The frequency, range and locations of fine arts performances	<b>✓</b>
(d) The breadth of fine arts programming available across HRM	✓ /
(e) The number of students who had the opportunity to receive an identifiable educational enhancement in their school by family of schools and grade level	<b>✓</b>
3. A budget update, including allocation for the current year and multi-year projection	✓

## Budget Vs. Actual

- 2022/23 used different budget than suggested in agreement
- Insufficient details in agreement to determine flexibility
- HRCE disclosed plans in 2021/22 annual report

## **Detailed Spending**

- Mostly consistent with agreement
- Agreement details insufficient to determine for some expenses

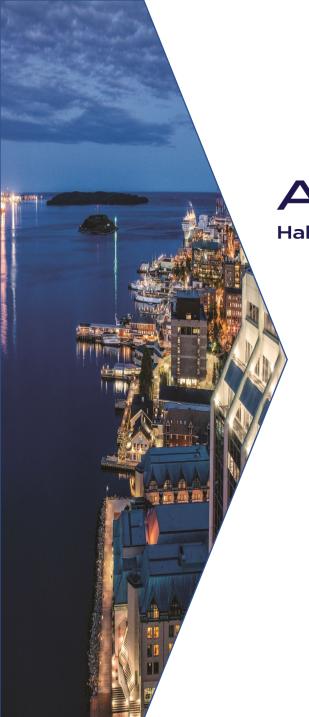

## No Monitoring

- HRM can obtain any details they wish
- Required reporting does not include information needed for monitoring
- HRM does not look at anything

#### **Next Steps**

- HRM (Management and Council) have to decide what they want to do
- This request implies concern, but lack of monitoring does not
