

Project/Design Rationale: 2267 Brunswick Street DA NSA Application

Date: December 12th, 2024

Request for a Non-Substantive Amendment to extend DA Commencement Date:

The proposed development was approved under a HRM DA on July 12th, 2021 with a commencement date within 3 years (July 12th, 2024). The project accidently missed the deadline extension date in July but is currently in detailed design with a planned Permit application in March. This request is for a non-substantive amendment to extend the 'commencement of development' date by two years to July 12, 2026, as allowed by Policy IM-34.
