Subject: Re: [External Email] Accessibility advisory committee

Hi Elizabeth,

What we will present, with Extra Care Taxi is a proposal for an Emergency Service for Stranded PWD due to mobility device failure for stranded persons with disabilities due to mobility equipment failure. Just imagine travelling alone in a wheel chair on a cold winter's night and the chair stops working; this could be disastrous. It has happened to both Carole and myself. We are proposing an addendum to the Extra Care Taxi Service to provide such an Emergency Service.

We would like this proposal to be considered by the appropriate HRM Standing Committee for approval by HRM Council.

Warm regards,

Gerry
