[This email has been received from an external person or system]

Hello Dorothy,

I am a PhD candidate at Dal and have been working with Elizabeth Montgomery at HRM to monitor some of the lakes at which the city provides lifeguard services during the summer. Our team has monitored these lakes for toxic cyanobacteria for three years and Elizabeth has asked us to present some of our findings to the Environment and Sustainability Standing Committee. Could we arrange a presentation to ESSC in April?

Thank you,

Dave Redden, MASc, EIT (he/him)
