NAVIGATING TRADE & TARIFF IMPACTS

Connecting businesses to new markets, trading partners, and supply chains.

[HOME](#) » [LOCAL BUSINESS SUPPORT](#) » [SMARTBUSINESS SERVICES](#) » NAVIGATING THE CANADA-U.S. TRADE DISPUTE

Last updated: May 8, 2025

The tariffs imposed by the United States on Canadian goods and energy exports impact all sectors of our national and local economy.

A tariff war will disrupt Canada-US business operations, erode the competitiveness of North American industries, and result in job losses for thousands of workers on both sides of the border.

Now is the time for urgent action.

[Read our statement on Navigating the U.S. Tariff Impacts.](#)

DIVERSIFY TO REDUCE RISK

We value our business relationships and partnerships with the United States – the U.S. accounted for 69% of Nova Scotia's international exports in 2024.

But the Canada-U.S. trade dispute underscores the need for Nova Scotia businesses to diversify markets, trading partners, supply chains, and revenue sources.

Canada currently has 14 bilateral and regional [Free Trade Agreements \(FTAs\)](#) in force, covering 51 countries and nearly two thirds of global GDP. As the only G7 nation that has FTAs with all 6 of the other member countries, Canada is at the centre of global trading networks.

WE CAN HELP

Halifax Partnership is here to help your business navigate the Canada-U.S. trade dispute and mitigate economic impacts. Our SmartBusiness team can connect you to the right tools, programs, and partners to:

- Explore new export markets
- Develop trade relationships
- Diversify supply chains and revenue sources
- Increase productivity and competitiveness
- [Mitigate Risks through Business Continuity Planning](#)

Attract, Retain, and Develop Talent

Increase the Population to 525,000 and Labour Force to 310,000 by 2027

CEO CLIMATE ACTION CHARTER

The purpose of the **CEO Climate Action Charter** is, in the spirit of continuous improvement and collaboration, to encourage each other to take meaningful climate action using the unique operational levers of our respective organizations, while demonstrating leadership to our community. Together, our actions will positively impact people, planet and prosperity in our city and province.

BY SIGNING THIS CHARTER, I COMMIT THAT IN MY ORGANIZATION:

- 1. We do the right thing:** We embed climate goals into our organization's culture and values.
- 2. We do what we say:** We track and share our climate action goals and initiatives.
- 3. We learn and adapt:** We actively share best practices and mentor to progress our climate goals in an ever-changing and highly complex world.
- 4. We support an equitable transition to a green economy:** We work together to create solutions that are accessible for all.
- 5. We work together:** We leverage our influence and networks to remove barriers and enable progress for collective success.
- 6. We are all part of the solution:** We empower people to be climate leaders.
- 7. We communicate with government about the impacts of policy:** We participate in two-way communication between government and industry to best enable our abilities to progress climate action.
- 8. We help climate action innovators:** We find ways to support new ideas and solutions that accelerate climate action.
- 9. We embed climate action in business decisions:** We acknowledge climate action as a business imperative and include climate thinking in business and organizational decisions.
- 10. We signal action:** We commit to being vocal about our climate action initiatives to encourage all businesses, organizations and leaders to adopt meaningful, climate-focused change.

As a signatory to this Charter, I hereby agree to participate in the CEO Climate Action Charter Leadership Group to share information and best practices with the goal of continuously improving climate action strategies, programming, and performance, acting towards achieving the intent and principles of the CEO Climate Action Charter.

→ 22 CEO Climate Action Charter signatories

→ 3 year action plan developed
