

November 1, 1948.

BUILDING PERMIT
Forrester Street.

An application has been received from Mr. A. Dickson to erect a dwelling on Forrester Street at Africville. Mr. Dickson was burned out during the last fire which razed six dwellings. A well and privy or cesspool will be necessary for this dwelling. While we are trying to eliminate this combination within the City the likelihood of having these services provided on Forrester Street in the near future is very improbable, it is therefore recommended that the permit be granted.

BUILDING PERMIT,
Barrington St. - Africville.

An application has been received from Mr. P. Gannon to erect a dwelling on Barrington Street at Africville. Mr. Gannon was burned out during the last fire which razed six dwellings. A well and privy or cesspool will be necessary for this dwelling. While we are trying to eliminate this combination within the City, the likelihood of having these services provided in Africville is very improbable, it is therefore recommended that the permit be granted.

FISH PERMIT
Whyman Hilchie

At a recent meeting a recommendation was made that Mr. Whyman Hilchie be granted a Fish Permit for the purpose of jobbing and wholesaling fish. Since receiving his permit Mr. Hilchie has been found peddling fish on the Ferry Wharf. In view of this action, as the result of complaints, it is recommended that the permit be cancelled.
