ANNUAL REPORT CITY AUDITOR. 1918-1919.

Office of the City Auditor, Halifax, N. S., Nov. 1st, 1919.

To His Worship the Mayor, and Members of the City Council.

Gentlemen:—I have much pleasure in presenting this my nineteenth Annual Report.

The Board of Control, by the vote of the ratepayers, ceased to exist at the last election. One outstanding feature of the Board of Control System was that it brought forth men who, in spite of strongest opposition, even when in a hopeless minority, would "stand to their guns" and do the right thing by the ratepayers who elected them.

The live question to-day is taxation and it must be grappled with sooner or later. In face of existing circumstances I think that any ratepayer who has the welfare of the City at heart enough to scan my report of 1914-1915, pages 26 to 28 will feel that suggestion made therein were such that had they been carried out we would now have been in a much better financial condition.

Legislation has been obtained by the classes against the masses and one thing is certain—when the latter become educated to the right point, they will not stand such unloading. At the same time I think I should state that had the elected representatives of that period been amenable to suggestions by their old officials who had ripe experience in matters of taxation and civic requirements, it would have been much better for the general ratepaye.

In spite of the high cost of building, there are more houses of a substantial character being built at the present time than at any other period of our existence and yet the housing problem is a serious one, and is now being prosecuted vigorously by different interests.

Our streets are badly torn up in order to place them on a more permanent basis, which we hope to have accomplished within another year or so.

Our Tram Service is being very much improved. Steel shipbuilding is progressing favorably, and general business with us is very good, with a favorable outlook for the near future.

The Relief Commission are doing a good work for us and we cannot be too thankful for the sympathy and monetary relief extended us by the world on account of the Explosion of December 6th., 1917, when over 1600 of our people were wiped out in a few seconds of time.

Halifax was hard hit by the War, not only through the Explosion and the death of many of our bright young men at the front, but indirectly through disease and disabilities which are the inevitable results of war. On the other hand, we can point with pardonable pride to the fact that "to know our duty was to do it", as is evidenced by the accompanying accounts. 1918-19
