

City Engineer's Office,  
December 15th, 1917.

His Worship the Mayor.  
Sir:-

Mr. Adams the Town Planning Advisor of the Commission of Conservation is in town, and has informed me that the Chairman of the Commission has instructed him to place his services at the disposal of the City should the latter require the same

I consider that it is in the interests of the City to have the benefit of all the experience that can be obtained, in our endeavor to improve it, and I would recommend that the offer of the Commission be accepted, and that Mr. Adams be asked to cooperate with your City Engineer in replanning the part of the City affected by the late disaster.

H. W. Johnston,  
Acting City Engineer.
