Significant Habitats and Endangered Species

Legend

- Red Species
- Yellow Species
- Wetland
- Old Forest
- Ecological Sites
- Salt Marshes

RED (At Risk or Maybe at Risk)
 Species for which a formal detailed risk assessment has been completed (COSEWIC assessment or a provincial equivalent) and that have been determined to be at risk of extirpation or extinction. Species that may be at risk of immediate extirpation or extinction and are therefore candidates for interim conservation action and detailed risk assessment by COSEWIC or the Province.

YELLOW (Sensitive)
 Species that are not believed to be at risk of immediate extirpation or extinction, but which may require special attention or protection to prevent them from becoming at risk.

The following is a graphical representation and although care has been taken to ensure the best possible quality, HRM does not guarantee the accuracy of this document.

Notes: This map demonstrates a vision to be implemented over the life of the Regional Plan, through various tools, subject to financial ability and community interest.
