## Community Group – Category 2: The Friends of the Public Gardens

At the Halifax Victorian Public Gardens, our regular volunteers welcome visitors in a friendly and informative way. The Friends of the Public Gardens volunteers, from international students to volunteers acting as trees, embody the very spirit of friendship and teamwork shown by all our volunteers in an environment where nature still grows and thrives in the middle of the city. The Public Gardens are able to offer so much to so many thanks to the remarkable work done by our volunteers and our partners in the HRM gardening team.
