Excerpt From Citizens' Commission on Remuneration for members of the Council of the Halifax Regional Municipality:

Formula – methodology – weighted average

1. Convert all stipends into fully taxable amounts
2. Add populations
3. Express as a percentage the population of each universe municipality as a portion of the universe total population = **weighting factor**
4. Multiply the stipend of each mayor or councillor by the weighting factor = **weighted salary**
5. Add the weighted stipend of each universe municipality = **weighted average salary**
6. Subtract weighted average salary from the highest salary
7. Divide by 2 = **median rate** between weighted average and highest rate
8. Add median rate to average rate = **HRM stipend**
9. **Except that:**

In 2004 the weighted average only will be paid

In 2005 the weighted average only will be paid

In 2006 the weighted average plus 10% will be paid

In 2007 the weighted average plus 20% will be paid

In 2008 the weighted average plus 30% will be paid

In 2009 the weighted average plus 40% will be paid

In 2010 and all subsequent years the weighted average plus 50% - or median rate - will be paid
