(4) At least thirty days before prescribing or amending provincial subdivision regulations, the Minister shall

(a) send a copy of the proposed regulations to the clerk of every municipality that will be affected by the regulations and invite written comments; and

(b) place a notice in a newspaper circulating in the area that will be affected by the regulations stating where the proposed regulations may be inspected and invite written comments.

(5) Where, on the coming into force of this Act, a municipality has not adopted a subdivision by-law, the municipality is deemed to have adopted the provincial subdivision regulations applicable to the municipality as its subdivision by-law.

(6) A subdivision by-law that is inconsistent with the provincial subdivision regulations is deemed to be amended by the subdivision regulations applicable to the municipality, unless the by-law provisions are more stringent, implement the municipal planning strategy or, with respect to the regulations concerning instruments of subdivision, do not provide for instruments of subdivision. 1998, c. 18, s. 270; 2001, c. 6, s. 119; 2003, c. 9, s. 70.

Subdivision by-law

271 (1) A subdivision by-law applies to the whole of a municipality, but the by-law may contain different requirements for different parts of the municipality.

(2) A subdivision by-law shall include

(a) any requirements prescribed by the provincial subdivision regulations applicable to the municipality unless

(i) the municipality adopts more stringent requirements, or

- (ii) the municipal requirements implement the municipal planning strategy;
 - (b) procedures for preliminary evaluation and tentative and final approvals;
 - (c) requirements for preliminary evaluation and tentative and final approvals;
 - (d) the form of a notice of approval of subdivision;
 - (e) provisions for the repeal of a subdivision; and
 - (f) provisions for the referral of an application to a department or agency of the Province or of the municipality.
- (3)** A subdivision by-law may include
- (a) requirements for access to a lot;
 - (b) requirements respecting the shape of a lot;
 - (c) where they are not prescribed in a land-use by-law, minimum lot frontage and minimum lot area;
 - (d) provisions allowing a waiver of certain requirements of the by-law and the circumstances in which a waiver may be allowed;
 - (e) procedures for the approval of, form of and requirements for approval and registration of instruments of subdivision in a county or district municipality;
 - (f) the fee for the processing of applications for approval or repeal of a subdivision, including registration, recording and filing fees;
 - (g) requirements for the design and construction of streets, private roads, wastewater facilities, stormwater systems, water systems and other services;
 - (ga) requirements for part of a system for the supply or distribution of electricity or other source of energy or a telecommunications system to be placed underground;
 - (h) requirements for the transfer to the municipality of useable land, or equivalent value, for trails, park, playground and similar public purposes, and a requirement that, if the land being subdivided has frontage on the ocean, a river or a lake, the land transferred include land with frontage on the ocean, river or lake or land to provide public access to the ocean, river or lake, provided that the land required to be transferred does not exceed
 - (i) five per cent of the area of the lots shown to be approved on the final plan of subdivision, or

(ii) ten per cent of the area of the lots shown to be approved on the final plan of subdivision, if the requirement and the reasons for it are provided for in a municipal planning strategy;

(i) procedures and requirements for concept plan approval;

(j) the identification of transportation reserves and requirements that lots be designed so as not to impede a transportation reserve;

(k) regulate the width of streets or private road rights-of-way on which subdivisions are permitted.

(4) Where a municipal planning strategy so provides, a subdivision by-law may

(a) regulate or prohibit new municipal streets in all, or part, of the municipality where, in the opinion of the council, the streets would be premature;

(b) regulate or prohibit subdivisions on private roads in all, or part, of the municipality;

(c) limit the number of lots that may be created from an area of land in a calendar year.

(5) A subdivision by-law may require that prior to approval of a final plan of subdivision the applicant shall

(a) install water systems, wastewater facilities, stormwater systems and other services in the area of land being subdivided to the standards prescribed by the municipality;

(b) install trees for streets, bus bays, sidewalks and pathways; and

(c) lay out, construct, grade and pave, in whole or in part, any street in the area of land being subdivided to the standards prescribed by the municipality,

or in the alternative, enter into a bond or other security satisfactory to the municipality to

(d) install and provide the water systems, wastewater facilities, stormwater systems and other services in the area of land being subdivided to the standards prescribed by the municipality;

(e) install the trees along streets, bus bays, sidewalks and pathways required by the by-law; and

(f) lay out, construct, grade and pave, in whole or in part, any street in the area of land being subdivided to the standards prescribed by the municipality,

and in either case provide a bond or other security, satisfactory to the municipality, for the maintenance of the services for a maximum of two years from the date the services are accepted by the municipality as having been installed to the standards prescribed by the municipality.

(6) A subdivision by-law may require that an applicant have, or permit an applicant to have, a qualified professional certify to the municipality that the services have been designed and installed to the standards prescribed by the municipality, and the municipality may rely on the certificate so given.

(7) A subdivision by-law may authorize the municipality to require an applicant for subdivision approval to provide water systems, wastewater facilities, stormwater systems and other services, including streets, in the area of land being subdivided with a capacity exceeding the anticipated requirements of the applicant's subdivision, if the municipality reimburses the applicant for any costs incurred with respect to the excess capacity.

(8) Any cost to a municipality pursuant to subsection (7) may, at the option of the council, be recovered by the municipality in the same manner as an infrastructure charge or in another manner.

(9) The procedure for the adoption, amendment, repeal, approval and publication of a subdivision by-law is the same as the procedure prescribed for planning documents.

(10) Notwithstanding the *Public Utilities Act* and for greater certainty, any by-law made pursuant to this Section and any transfer, bond, security, cost, charge or requirement, fixed or imposed pursuant to this Section, do not require approval by the Board. 1998, c. 18, s. 271; 2001, c. 35, s. 14; 2001, c. 6, s. 119; 2003, c. 9, s. 71; 2004, c. 7, s. 18.

Contents of subdivision by-law

272 (1) A council may, in the subdivision by-law, require a person applying for final approval of a subdivision to

(a) provide, at no cost to the municipality, easements for the drainage of stormwater in those circumstances specified in the subdivision by-law on the land that is proposed to be subdivided or outside that land;

(b) transfer to the municipality land, including easements, that may be necessary to operate and maintain stormwater systems;

(c) enter into an agreement to carry out a drainage plan or grading plan required by a subdivision by-law and to provide security satisfactory to the engineer to secure performance of the agreement.

(2) A subdivision by-law may

- (a) specify standards and requirements for an easement required by the subdivision by-law;
- (b) set standards and requirements respecting drainage master plans, drainage plans and grading plans;
- (c) prescribe when drainage master plans, drainage plans and grading plans are required. 1998, c. 18, s. 272.

Land or cash-in-lieu

273 (1) In this Section, “equivalent value” includes cash or facilities, services or other value in kind, related to parks, playgrounds and similar public purposes or any combination thereof, determined by the municipality to be equivalent to the value of the land as determined by the assessor pursuant to this Section.

(2) Where a subdivision by-law provides for the transfer to the municipality of useable land, the applicant may provide land, equivalent value or a combination of land and equivalent value equal to the amount of the transfer required by the subdivision by-law.

(3) The subdivision by-law may specify the cases in which land only, equivalent value only, or land and equivalent value in a specified combination shall be transferred.

(4) Where equivalent value is to be provided in lieu of transferring land, the amount required shall be determined by an assessor based on the market value of the proposed lots excluding streets, easements and the residue of the land of the applicant, and this valuation may be appealed in the same manner as an assessment.

(5) Where cash is paid in lieu of transferring land, the council shall use the funds for the acquisition of, and capital improvements to, parks, playgrounds and similar public purposes and may use the interest on any funds not expended for those purposes for the operation and maintenance costs of parks, playgrounds and similar public purposes.

(5A) Notwithstanding subsections (5) and (13), the council may transfer

(a) the funds referred to in subsections (5) and (13) to a village or non-profit organization that is providing parks, playgrounds or other recreational facilities in the municipality to be used for the acquisition of and capital improvements to those parks, playgrounds or other recreational facilities; and

(b) the interest on the funds referred to in subsections (5) and (13) to a village or non-profit organization that is providing parks, playgrounds or other recreational facilities in the municipality to be used for the operation or maintenance of those parks, playgrounds or other recreational facilities.

(6) A subdivision by-law may include a definition of useable land, which may specify a minimum area, minimum dimensions, location and a method of establishing a minimum quality of the land.

(7) Useable land does not include any streets or easements conveyed to the municipality.

(8) The area of useable land to be conveyed to the municipality is calculated on the area of the lots to be approved, as shown on the final plan of subdivision, excluding streets and the residue of the land of the applicant.

(9) A development officer shall accept any land offered by an applicant that meets the definition of useable land contained in the subdivision by-law.

(10) An applicant may, with the approval of the council, convey to the municipality an area of land in the municipality of equal value outside the area being subdivided, in lieu of land in the subdivision.

(11) An applicant may provide a bond or other security acceptable to the council for the conveyance to the municipality of land in a future phase of the subdivision rather than conveying land from the approved phase of the subdivision or equivalent value.

(12) Any land conveyed to a municipality pursuant to this Section shall be

(a) free and clear of all encumbrances except an easement or right of way that does not materially interfere with the use and enjoyment of the land; and

(b) used for parks, playgrounds and similar public purposes.

(13) Where council determines that any land transferred pursuant to this Section might no longer be needed for parks, playgrounds or similar public purposes, the council may sell the land, after notifying the owners of lots in the subdivision with respect to which the land was conveyed to the municipality, by notice published in a newspaper circulating in the municipality at least fourteen days prior to the council meeting at which a decision to sell will be made, and the proceeds shall be used for parks, playgrounds and similar public purposes. 1998, c. 18, s. 273; 2003, c. 9, s. 72; 2004, c. 7, s. 19; 2006, c. 40, s. 11.

Infrastructure charges

274 (1) A municipal planning strategy may authorize the inclusion of provisions for infrastructure charges in a subdivision by-law.

(2) Infrastructure charges for

(a) new or expanded water systems;

- (b) new or expanded wastewater facilities;
- (c) new or expanded stormwater systems;
- (d) new or expanded streets;
- (da) new or expanded solid-waste management facilities;
- (e) new traffic signs and signals and new or expanded transit facilities,

may be imposed in a subdivision by-law to recover all, or part, of the capital costs incurred, or anticipated to be incurred, by a municipality by reason of the subdivision and future development of land and infrastructure charges for land, planning, studies, engineering, surveying and legal costs incurred with respect to any of them.

(3) The subdivision by-law shall set out the infrastructure charge areas in which infrastructure charges are to be levied, the purposes for which infrastructure charges are to be levied and the amount of, or method of calculating, each infrastructure charge.

(4) Infrastructure charges may be set at different levels related to the proposed land use, zoning, lot size and number of lots in a subdivision and the anticipated servicing requirements for the infrastructure charge area.

(5) Infrastructure charges may not be imposed if an infrastructure charge has been paid with respect to the area of land, unless further subdivision of the land will impose additional costs on the municipality.

(6) An infrastructure charge may only be used for the purpose for which it is collected.

(7) Final approval of a subdivision shall not be granted unless the infrastructure charges are paid or the applicant has entered into an agreement with the municipality securing the payment of the infrastructure charges.

(8) Infrastructure charges are a first lien on the land being subdivided and may be collected in the same manner as taxes.

(9) A by-law in effect on the date this Act comes into force that provides for a trunk sewer tax imposed on each lot in a new or existing subdivision is deemed to be a by-law made pursuant to this Section.

(10) Notwithstanding the *Public Utilities Act* and for greater certainty, any by-law made pursuant to this Section and any charge set, levied or imposed pursuant to this Section do not require the approval of the Board. 1998, c. 18, s. 274; 2001, c. 35, s. 15; 2003, c. 9, s. 73; 2006, c. 40, s. 12.

Infrastructure charges agreement

275 (1) An applicant and a municipality may enter into an infrastructure charges agreement that may

- (a) provide for the payment of infrastructure charges in installments;
- (b) permit the applicant to provide certain services or extended services in lieu of the payment of all, or part, of the charge;
- (c) provide for security to ensure that the infrastructure charges are paid when due;
- (d) provide for any other matter necessary or desirable to effect the agreement.

(2) A subdivision by-law may prescribe the circumstances in which an infrastructure charges agreement may be entered into and the general terms that such an agreement shall contain. 1998, c. 18, s. 275.

Effect of infrastructure charges agreement

276 An infrastructure charges agreement

- (a) is binding on the land that is subdivided;
- (b) shall be registered in the registry or, in the case of land registered pursuant to the *Land Registration Act*, shall be recorded in the land registration office in the register of each parcel created or altered by the subdivision, and shall be indexed as a conveyance to and from the owner of the land that is subdivided; and
- (c) is binding on each individual lot in a subdivision, to the extent specified in the agreement. 1998, c. 18, s. 276; 2001, c. 6, s. 119.

Time limits for subdivision approval application

277 (1) Within fourteen days of receiving an application for subdivision approval, the development officer shall

- (a) determine if the application is complete; and
- (b) where the application is incomplete, notify the applicant in writing, advising what is required to complete the application.

(2) A completed application for subdivision approval that is neither approved nor refused within ninety days after it is received is deemed to be refused, unless the applicant and the development officer agree, in writing, to an extension.

(3) The development officer shall inform the applicant of the reasons for a refusal in writing. 1998, c. 18, s. 277; 2003, c. 9, s. 74.

Limitations on granting subdivision approval

278 (1) Subject to Section 283, an application for subdivision approval shall be approved if the proposed subdivision is in accordance with the

enactments in effect at the time a complete application is received by the development officer.

where (2) An application for subdivision approval shall be refused

(a) the proposed use of the lots being created is not permitted by the land-use by-law;

(b) the proposed lots do not comply with a requirement of the land-use by-law, unless a variance has been granted with respect to the requirement;

(c) the proposed lots would require an on-site sewage disposal system and the proposed lots do not comply with requirements established pursuant to the *Environment Act* for on-site sewage disposal systems, unless the owner has been granted an exemption from technical requirements by the Minister of the Environment, or a person designated by that Minister;

(d) the development officer is made aware of a discrepancy among survey plans that, if either claimant were completely successful in a claim, would result in a lot that cannot be approved;

(e) the proposed access to a street does not meet the requirements of the municipality or the Province;

(f) the proposed subdivision does not meet the requirements of the subdivision by-law and no variance is granted; or

(g) the proposed subdivision is inconsistent with a proposed subdivision by-law or a proposed amendment to a subdivision by-law, for a period of one hundred and fifty days from the publication of the first notice advertising the council's intention to adopt or amend the subdivision by-law. 1998, c. 18, s. 278; 2001, c. 35, s. 16.

Lots not meeting requirements

279 Where a subdivision by-law or a land use by-law specifies minimum lot dimensions or lot area and the subdivision by-law so provides, the development officer may approve a plan of subdivision that shows not more than two lots that do not meet these requirements, provided that the lot dimensions and area are not less than ninety per cent of the required minimums. 1998, c. 18, s. 279; 2004, c. 44, s. 3.

Streets

280 (1) No plan of subdivision may be approved by a development officer where

(a) the plan shows a street to be owned by the municipality, unless the engineer has approved the design and construction standards of the street, and any intersection with a street, owned by the municipality;

(b) the plan shows a proposed intersection with a street owned by the Province, unless the intersection has been approved by the Minister of Transportation and Public Works, or a person designated by that Minister; or

(c) the Minister of Transportation and Public Works, or a person designated by that Minister, or the engineer advises that the probable volume of traffic from the development will create unsafe conditions for which no remedial arrangements have been made.

(2) The owners of lots shown on a plan of subdivision as abutting on a private right of way are deemed to have an easement over the private right of way for vehicular and pedestrian access to the lot and for the installation of electricity, telephone and other services to the lot.

(3) The new streets and new extensions of streets shown on a plan of subdivision, excluding roads that are shown on the plan as private roads, are vested absolutely in the municipality in which they are situated when the final approved plan is filed in the registry. 1998, c. 18, s. 280.

Requirement to approve plan of subdivision

281 A development officer shall approve a plan of subdivision prepared to carry out a development agreement authorized by a municipal planning strategy and land-use by-law, notwithstanding that the plan does not comply with the subdivision by-law, if the plan complies with the terms of the agreement. 1998, c. 18, s. 281.

Underlying lots deemed consolidated

281A Where a subdivision plan shows a remainder lot that is made up of the remainder of two or more underlying lots that have not been consolidated, the underlying lots are deemed to be consolidated before approval of the subdivision plan unless the application and plan indicate that they are not and if

(a) subsection 282(1) is complied with; and

(b) the remainder lot is ten hectares or less in area, the subdivision plan includes a survey of the entirety of the remainder lot,

in which case, the development officer shall register the deeds respecting the remainder lot, if any, with the approved plan. 2003, c. 9, s. 75.

Subdivision that adds or consolidates

282 (1) No plan of subdivision that adds or consolidates parcels or areas of land in different ownerships may be approved by a development officer until the development officer is provided with

(a) executed deeds suitable for registering to effect the addition or consolidation; and

(b) the fees for registering the deeds.

(2) The development officer shall register the deeds with the approved plan. 1998, c. 18, s. 282; 2000, c. 9, s. 48.

Approval by development officer

282A (1) No plan or instrument of subdivision that, under the *Land Registration Act*, is not acceptable for registration pursuant to the *Registry Act*, may be approved by a development officer unless the development officer is provided with proof that the parcels affected are all registered pursuant to the *Land Registration Act*.

(2) No plan or instrument of subdivision that adds or consolidates parcels or areas of land, that, under the *Land Registration Act*, is not acceptable for registration pursuant to the *Registry Act*, may be approved by a development officer unless the development officer is provided with proof that both the parcel from which land is taken and the parcel to which land is added are registered pursuant to the *Land Registration Act*.

(3) A deed to effect a consolidation provided to a development officer pursuant to Section 282 shall, where the deed is to be registered pursuant to the *Land Registration Act*, include a legal description of the consolidated parcel.

(4) The approval of a plan or instrument of subdivision contrary to subsection (1) or (2) shall be cancelled if the plan or instrument of subdivision is not accepted for registration pursuant to the *Land Registration Act*. 2001, c. 6, s. 119; 2004, c. 38, s. 26.

Tentative plan of subdivision

283 Where a tentative plan of subdivision is approved pursuant to the subdivision by-law, a lot or lots shown on the approved tentative plan shall be approved at the final plan of subdivision stage, if

- (a) the lots are substantially the same as shown on the tentative plan;
- (b) any conditions on the approval of the tentative plan have been met;
- (c) the services required by the subdivision by-law at the time of approval of the tentative plan have been constructed and any municipal service has been accepted by the municipality or acceptable security has been provided to the municipality to ensure the construction of the service; and
- (d) the complete application for final subdivision plan approval is received within two years of the date of the approval of the tentative plan.

1998, c. 18, s. 283; 2001, c. 35, s. 17.

Appeals to the Board

284 The refusal to approve a concept plan or tentative or final plan of subdivision may be appealed to the Board by the applicant in accordance with the procedure for an appeal to the Board set out in Part VIII. 1998, c. 18, s. 284.

Filing of approved final plan of subdivision

285 (1) No final plan of subdivision shall be filed in the registry unless the plan has been approved by a development officer in accordance with this Part.

(2) A development officer, or a person acting for a development officer, shall, within seven days of the approval of a final plan of subdivision, forward two original copies of the approved plan to the registry, one of which is to be filed in the registry.

(3) At the same time as an approved final plan of subdivision is filed in the registry, a notice of the approved final plan of subdivision shall be registered in the registry.

(4) A notice of the approved final plan of subdivision shall be indexed as a conveyance from the person whose land is divided.

(5) Where an approved final plan of subdivision effects an addition or consolidation, the notice of the plan shall be indexed as a conveyance from the person whose land is divided and from the person whose land is enlarged as a result of the addition or consolidation. 1998, c. 18, s. 285; 2006, c. 40, s. 13.

Lot crossing municipal boundary

286 Where a lot to be created by a plan of subdivision crosses a municipal boundary, an approval is required from each municipality in which the proposed lot is located. 1998, c. 18, s. 286.

When subdivision takes effect

287 (1) A subdivision of land takes effect when the plan of subdivision is filed in the registry.

(2) No deed, mortgage, lease or other instrument which would result in the subdivision of land for which subdivision approval is required has effect until the subdivision is approved and the plan is filed.

(3) A deed, mortgage, lease or other instrument, which purports to subdivide land and is executed before the approval and the filing of a plan of subdivision in the registry in accordance with this Part, is deemed

(a) to have been executed immediately after the filing of the plan of subdivision; and

(b) where the deed, mortgage, lease or other instrument has been registered in the registry, to have been duly registered at the time of the actual registration.

(4) Where two or more deeds, mortgages, leases or other instruments are deemed to have been executed at the same time, they are deemed to have been executed in the same order as they were actually executed.

(5) Where a deed, mortgage, lease or other instrument is made which results in the subdivision of land in accordance with a plan or instrument of subdivision duly approved and filed in the registry, the amendment of the plan or instrument does not restrict the right of the owner, mortgagee, lessee or other holder to execute other deeds, mortgages, leases or instruments in which the property is described as it is described in the original deed, mortgage, lease or other instrument. 1998, c. 18, s. 287.

Amendment of approved final plan of subdivision

288 (1) An approved final plan of subdivision may be amended, provided the amendment does not materially alter the boundaries of a lot created by the approved plan.

(2) The provisions of this Act that apply to an approved final plan of subdivision apply to an amended plan of subdivision, except the effective date of the approval of the amended plan is the same as that of the approved final plan of subdivision. 1998, c. 18, s. 288; 2003, c. 9, s. 76.

Amendment or repeal of instrument of subdivision

289 An instrument of subdivision approved pursuant to this Act or the former *Planning Act* may be amended or repealed in the same manner, and with the same effect, as an approved final plan of subdivision. 1998, c. 18, s. 289.

Subdivision for which no approval required

290 Nothing in this Act prevents an application for approval of or the approval of, a subdivision for which no approval is required. 1998, c. 18, s. 290.

Title or interest not affected

- 291 (1)** A failure to comply with
- (a) this Act; or
 - (b) the former *Planning Act*,

or a regulation or by-law made thereunder does not affect the creation of a title or interest in real property conveyed, or purported to have been conveyed, by deed, lease, mortgage or other instrument before April 16, 1987.

(2) Subsection (1) does not affect the rights acquired by a person from a judgment or order of a court given or made in litigation or proceedings commenced before April 16, 1987. 1998, c. 18, s. 291.

Former Planning Act

292 A subdivision by-law adopted pursuant to a former *Planning Act* is a subdivision by-law within the meaning of this Act, to the extent that it is consistent with this Act. 1998, c. 18, s. 292.

295 (1) A body corporate may apply to a municipality for registration as an emergency services provider to provide emergency services other than fire services.

(5) A municipality, a village, a fire protection district, a fire department, an emergency services provider and an officer in charge, and a person

acting under the direction or authority of that officer, are not liable for an act done in the exercise of any of the powers conferred by this Section. 1998, c. 18, s. 297.

(4) Nothing in this Act dissolves any authority, board, commission, committee or other entity that includes representatives of municipalities situate outside the regional municipality.

Statements of Provincial Interest

Introduction

Statement of Provincial Interest Regarding Drinking Water

Statement of Provincial Interest Regarding Flood Risk Areas**Statement of Provincial Interest Regarding Agricultural Land****Statement of Provincial Interest Regarding Infrastructure****Statement of Provincial Interest Regarding Housing****Implementation****INTRODUCTION**

Nova Scotia's land and water resources are fundamental to our physical, social and economic well-being. But they are finite resources and using them in one way can mean the exclusion of other uses forever. Therefore, it is important that decisions about Nova Scotia's land and water be made carefully. Ill-advised land use can have serious consequences for the physical, economic and social well-being of all Nova Scotians.

These statements of Provincial interest recognize the importance of our land and water resources. The statements also address issues related to the future growth of our communities. They are intended to serve as guiding principles to help Provincial Government departments, municipalities and individuals in making decisions regarding land use. They are supportive of the principles of sustainable development.

Development undertaken by the Province and municipalities should be reasonably consistent with the statements.

As the statements are general in nature, they provide guidance rather than rigid standards. They reflect the diversity found in the Province and do not take into account all local situations. They must be applied with common sense. Thoughtful, innovative and creative application is encouraged.

DEFINITIONS

These definitions apply to the Statements of Provincial Interest.

Agricultural Land means active farmland and land with agricultural potential as defined by the Canada Land Inventory as Class 2, 3 and Class 4 land in active agricultural areas, specialty crop lands and dykelands suitable for commercial agricultural operations as identified by the Department of Agriculture and Marketing.

Floodplain means the low lying area adjoining a watercourse.

Floodproofed means a measure or combination of structural and non-structural measures incorporated into the design of a structure which reduces or eliminates the risk of flood damage, usually to a defined elevation.

Floodway means the inner portion of a flood risk area where the risk of flooding is greatest, on average once in twenty years, and where flood depths and velocities are greatest.

Floodway Fringe means the outer portion of a flood risk area, between the floodway and the outer boundary of the flood risk area, where the risk of flooding is lower, on average once in one hundred years, and floodwaters are shallower and slower flowing.

Groundwater Recharge Area means the area of land from which water flows to supply a well.

Hazardous Materials means dangerous goods, waste dangerous goods and pesticides as defined in the *Environment Act* C.I., S.N.S. 1994-95.

Municipal Water Supply Watershed means an area encompassing a surface watershed or recharge area, or a portion of it, serving as a water supply area for a municipal water system.

Off-site Fill means fill that has been imported from outside the floodplain or fill which is transported from the Floodway Fringe to the Floodway.

Planning Documents means a municipal planning strategy, land-use by-law, development agreement and subdivision by-law.

STATEMENT OF PROVINCIAL INTEREST REGARDING DRINKING WATER

GOAL

To protect the quality of drinking water within municipal water supply watersheds.

BASIS

A safe supply of drinking water is a basic requirement for all Nova Scotians.

Inappropriate development in municipal water supply watersheds may threaten the quality of drinking water.

Some water supply watersheds are located outside the municipality using the water. The municipality depending on the water therefore has no direct means of protecting its supply.

APPLICATION

This statement applies to all municipal water supply watersheds in the Province including surface watersheds and groundwater recharge areas.

PROVISIONS

1. Planning documents must identify all municipal water supply watersheds within the planning area.
2. Planning documents must address the protection of drinking water in municipal water supply watersheds. Measures that should be considered include

- (a) restricting permitted uses to those that do not pose a threat to drinking water quality;
 - (b) balancing the expansion of existing uses against the risks posed to drinking water quality;
 - (c) limiting the number of lots. Too many lots may result in development which cumulatively affects drinking water quality. The minimum size of lots and density of development should be balanced against the risks posed to the quality of drinking water;
 - (d) setting out separation distances between new development and watercourses to provide protection from run-off;
 - (e) establishing measures to reduce erosion, sedimentation, run-off and vegetation removal associated with development.
3. Existing land use and the location, size and soil conditions of a municipal water supply watershed will determine the land-use controls that should be applied. Large surface watersheds, for example, may be able to sustain more development than a small groundwater recharge area.
- It is recognized that in some situations the long-term protection of the drinking water supply may be impractical. In these cases planning documents must address the reasons why the water supply cannot be protected. Municipalities in this situation should consider locating an alternate source of drinking water where long-term protective measures can be applied.
4. The Province supports the preparation of watershed management strategies for all municipal water supply watersheds. These strategies should be prepared by the concerned municipalities and the municipal water utility, in consultation with all affected parties, including landowners.

STATEMENT OF PROVINCIAL INTEREST REGARDING FLOOD RISK AREAS

GOAL

To protect public safety and property and to reduce the requirement for flood control works and flood damage restoration in floodplains.

BASIS

Floodplains are nature's storage area for flood waters [floodwaters].

New development in a floodplain can increase flood levels and flows thereby increasing the threat to existing upstream and downstream development.

Five floodplains have been identified as Flood Risk Areas under the Canada-Nova Scotia Flood Damage Reduction Program.

APPLICATION

This statement applies to all Flood Risk Areas that are designated under the Canada-Nova Scotia Flood Damage Reduction Program. These are

- (1) **East River**, Pictou County,
- (2) **Little Sackville River**, Halifax County,
- (3) **Sackville River**, Halifax County,
- (4) **Salmon and North Rivers**, Colchester County, and
- (5) **West and Rights Rivers and Brierly Brook**, Antigonish County.

There are other areas in the Province that are subject to flooding which have not been mapped under the Canada-Nova Scotia Flood Damage Reduction Program. In these areas, the limits of potential flooding have not been scientifically determined. However, where local knowledge or information concerning these floodplains is available, planning documents should reflect this information and this statement.

PROVISIONS

1. Planning documents must identify *Flood Risk Areas* consistent with the Canada-Nova Scotia Flood Damage Reduction Program mapping and any locally known floodplain.
2. For *Flood Risk Areas* that have been mapped under the Canada-Nova Scotia Flood Damage Reduction Program planning documents must be reasonably consistent with the following:
 - (a) within the *Floodway*,
 - (i) development must be restricted to uses such as roads, open space uses, utility and service corridors, parking lots and temporary uses, and
 - (ii) the placement of off-site fill must be prohibited;
 - (b) within the *Floodway Fringe*,
 - (i) development, provided it is floodproofed, may be permitted, except for
 - (1) residential institutions such as hospitals, senior citizen homes, homes for special care and similar facilities where flooding could pose a significant threat to the safety of residents if evacuation became necessary, and
 - (2) any use associated with the warehousing or the production of hazardous materials,
 - (ii) the placement of off-site fill must be limited to that required for floodproofing or flood risk management.
3. Expansion of existing uses must be balanced against risks to human safety, property and increased upstream and downstream flooding. Any expansion in the *Floodway* must not increase the area of the structure at or below the required floodproof elevation.

4. For known floodplains that have not been mapped under the Canada-Nova Scotia Flood Damage Reduction Program, planning documents should be, at a minimum, reasonably consistent with the provisions applicable to the *Floodway Fringe*.
5. Development contrary to this statement may be permitted provided a hydrotechnical study, carried out by a qualified person, shows that the proposed development will not contribute to upstream or downstream flooding or result in a change to ~~flood~~ ~~water~~ [floodwater] flow patterns.

STATEMENT OF PROVINCIAL INTEREST REGARDING AGRICULTURAL LAND

GOAL

To protect agricultural land for the development of a viable and sustainable agriculture and food industry.

BASIS

The preservation of agricultural land is important to the future of Nova Scotians.

Agricultural land is being lost to non-agricultural development.

There are land-use conflicts between agricultural and non-agricultural land uses.

APPLICATION

This statement applies to all active agricultural land and land with agricultural potential in the Province.

PROVISIONS

1. Planning documents must identify agricultural lands within the planning area.
2. Planning documents must address the protection of agricultural land. Measures that should be considered include:
 - (a) giving priority to uses such as agricultural, agricultural related and uses which do not eliminate the possibility of using the land for agricultural purposes in the future. Non-agricultural uses should be balanced against the need to preserve agricultural land;
 - (b) limiting the number of lots. Too many lots may encourage non-agricultural development. The minimum size of lots and density of development should be balanced against the need to preserve agricultural land;
 - (c) setting out separation distances between agricultural and new non-agricultural development to reduce land-use conflicts;
 - (d) measures to reduce topsoil removal on lands with the highest agricultural value.

3. Existing land-use patterns, economic conditions and the location and size of agricultural holdings means not all areas can be protected for food production, e.g., when agricultural land is located within an urban area. In these cases, planning documents must address the reasons why agriculture lands cannot be protected for agricultural use. Where possible, non-agricultural development should be directed to the lands with the lowest agricultural value.

STATEMENT OF PROVINCIAL INTEREST REGARDING INFRASTRUCTURE

GOAL

To make efficient use of municipal water supply and municipal wastewater disposal systems.

BASIS

All levels of government have made significant investment in providing municipal water supply and municipal wastewater disposal infrastructure systems.

Unplanned and uncoordinated development increases the demand for costly conventional infrastructure.

APPLICATION

All communities of the Province.

PROVISIONS

1. Planning documents must promote the efficient use of existing infrastructure and reduce the need for new municipal infrastructure. Measures that should be considered include:
 - (a) encouraging maximum use of existing infrastructure by enabling infill development on vacant land and higher density development;
 - (b) discouraging development from leapfrogging over areas served by municipal infrastructure to unserved areas;
 - (c) directing community growth that will require the extension of infrastructure to areas where serving costs will be minimized. The use of practical alternatives to conventional wastewater disposal systems should be considered;
 - (d) identifying known environmental and health problems related to inadequate infrastructure and setting out short and long-term policies to address the problems including how they will be financed.
2. Where on-site disposal systems are experiencing problems, alternatives to the provision of conventional wastewater disposal systems should be considered. These include the replacement or repair of malfunctioning on-site systems, the use of cluster systems and establishing wastewater management districts.

3. Installing municipal water systems without municipal wastewater disposal systems should be discouraged.
4. Intermunicipal solutions to address problems and provide infrastructure should be considered.

STATEMENT OF PROVINCIAL INTEREST REGARDING HOUSING

GOAL

To provide housing opportunities to meet the needs of all Nova Scotians.

BASIS

Adequate shelter is a fundamental requirement for all Nova Scotians.

A wide range of housing types is necessary to meet the needs of Nova Scotians.

APPLICATION

All communities of the Province.

PROVISIONS

1. Planning documents must include housing policies addressing affordable housing, special-needs housing and rental accommodation. This includes assessing the need and supply of these housing types and developing solutions appropriate to the planning area. The definition of the terms affordable housing, special-needs housing and rental housing is left to the individual municipality to define in the context of its individual situation.
2. Depending upon the community and the housing supply and need, the measures that should be considered in planning documents include: enabling higher densities, smaller lot sizes and reduced yard requirements that encourage a range of housing types.
3. There are different types of group homes. Some are essentially single detached homes and planning documents must treat these homes consistent with their residential nature. Other group homes providing specialized services may require more specific locational criteria.
4. Municipal planning documents must provide for manufactured housing.

IMPLEMENTATION

1. These statements of provincial interest are issued under the *Municipal Government Act*. The Minister of Housing and Municipal Affairs, in cooperation with other provincial departments, is responsible for their interpretation.
2. Provincial Government departments must carry out their activities in a way that is reasonably consistent with these statements.
3. New municipal planning documents as well as amendments made after these statements come into effect must be reasonably consistent with them.
4. Councils are encouraged to amend existing planning documents to be reasonably consistent with the statements. Where appropriate, the preparation of intermunicipal planning strategies is encouraged.
5. Reasonably consistent is defined as taking reasonable steps to apply applicable statements to a local situation. Not all statements will apply equally to all situations. In some cases, it will be impractical because of physical conditions, existing development, economic factors or other reasons to fully apply a statement. It is also recognized that complete information is not always available to decision makers. These factors mean that common sense will dictate the application of the statements. Thoughtful innovation and creativity in their application is encouraged.
6. Conflicts among the statements must be considered and resolved in the context of the planning area and the needs of its citizens.
7. The Department of Housing and Municipal Affairs, with other Provincial departments, may prepare guidelines and other information to help municipalities in implementing the statements. Provincial staff are available for consultation on the reasonable application of the statements.
