TO: Mayor Savage Members of Halifax Regional Council

SUBMITTED BY: -ORIGINAL SIGNED-
Councillor Patty Cuttell, Chair, CPED Standing Committee

DATE: February 15, 2024

ORIGIN

LEGISLATIVE AUTHORITY
Legislative Authority is outlined in the attached staff report dated January 25, 2024.

Community Planning and Economic Development Standing Committee – Terms of Reference

Oversight – Economic and Immigration
4. The Community Planning and Economic Development Standing Committee shall oversee the Municipality’s Economic Plan, Economic Prosperity Indicators and Immigration Action Plan by:
   a. being involved in policy development and overseeing of policies appropriate to promote Community and Economic development throughout the municipality;
   b. overseeing the progress of the Municipality's Economic Strategy and Outcome areas and related initiatives; and
   c. overseeing the progress of the Municipality’s Immigration Action Plan and related initiatives. – Terms of Reference

RECOMMENDATION
The Community Planning and Economic Development Standing Committee recommends that Halifax Regional Council approve Attachment A of the staff report dated January 25, 2024, as the action plan for years three-to-five (2024-2027) of the five-year People. Planet, Prosperity: Halifax’s Inclusive Economic Strategy 2022-2027.
BACKGROUND

The Community Planning and Economic Development Standing Committee received a staff recommendation report dated January 25, 2024 to consider the People. Planet, Prosperity: Halifax’s Inclusive Economic Strategy: Years 3-5.

For further information refer to the attached staff report dated January 25, 2024.

DISCUSSION

The Community Planning and Economic Development Standing Committee considered the staff report dated January 25, 2024 and approved the recommendation to Halifax Regional Council as outlined in this report.

FINANCIAL IMPLICATIONS

Financial implications are outlined in the attached staff report dated January 25, 2024.

RISK CONSIDERATION

Risk consideration is outlined in the attached staff report dated January 25, 2024.

COMMUNITY ENGAGEMENT

Meetings of the Community Planning and Economic Development Standing Committee are open to public attendance and members of the public are invited to address the Standing Committee for up to five (5) minutes during the Public Participation portion of the meeting. Meetings are live webcast on Halifax.ca. The agenda, reports, video, and minutes of the Standing Committee are posted on Halifax.ca.

For further information on Community Engagement refer to the attached staff report dated January 25, 2024.

ENVIRONMENTAL IMPLICATIONS

Environmental implications are outlined in the staff report dated January 25, 2024.

ALTERNATIVES

Alternatives are outlined in the attached staff report dated January 25, 2024.

ATTACHMENTS

Attachment 1 – Staff recommendation report dated January 25, 2024.
A copy of this report can be obtained online at halifax.ca or by contacting the Office of the Municipal Clerk at 902.490.4210.

LEGISLATIVE AUTHORITY

_Halifax Regional Municipality Charter_ 2008, c. 39

**Area improvement and promotion**

70 (1) The Municipality may
a) beautify, improve and maintain property owned or leased by the Municipality;
b) pay grants to a body corporate for the purpose of promoting or beautifying a business district and for airport, wharf or waterfront development;
c) identify and promote a business district as a place for retail and commercial activity;
d) establish or maintain parking facilities.

**Business and industrial development**

71 (1) The Municipality may
a) solicit and encourage the establishment and development of new, and the establishment, development and expansion of existing institutions, industries and businesses in and around the Municipality;
b) publicize the advantages of the Municipality or any part of the Municipality and the surrounding areas as a location for the establishment and expansion of institutions, industries and businesses;
c) pay grants to a body corporate for the purpose of promoting the Municipality or any part of the Municipality and the surrounding areas as a location for institutions, industries and businesses;
d) prepare and disseminate information about the Municipality or any part of the Municipality and the surrounding areas for the assistance of institutions, industries and businesses intending to locate or expand in the Municipality or the surrounding area.
RECOMMENDATION

It is recommended that the Community Planning and Economic Development (CPED) Standing Committee recommend that Regional Council approve:

1) Attachment 1 as the action plan for years three-to-five (2024-2027) of the five-year *People. Planet, Prosperity: Halifax’s Inclusive Economic Strategy 2022-2027.*

BACKGROUND

On March 22, 2022, Regional Council approved *People. Planet. Prosperity. Halifax’s Inclusive Economic Growth Strategy 2022-27*, as the five-year economic strategy for Halifax. It included 73 actions that Halifax Regional Municipality (HRM) and the Halifax Partnership (the Partnership) have undertaken to attract, keep, and grow talent, business, and investment in Halifax for the benefit of all. An update of Years 1-2 was presented to Community Planning and Economic Development and Regional Council in December 2023.

This report provides an update of the strategy for Years 3-5 (2024 to 2027) which has undergone a review to assess and fine-tune objectives and actions, not to overhaul its core substance. The Vision and five-year Targets of the strategy have not been changed as a result of this review. The wording of the third Strategic Goal has been updated.

DISCUSSION

Economic Environment and Impacts

There are key influencers impacting HRM economic growth, as outlined in Attachment A, which include:

- longer term impacts of the pandemic on supply chains, changes to labour markets, remote work trends and debt repayments;
- Housing availability, affordability, and the continuing pressures of inflation and significant population growth;
- Labour availability;
- Major project benefits;
- International issues contributing to inflationary pressures and heightening export risks;
- Increasing impacts of climate changes; and,
- Local emergency events.

While there are many challenges to be addressed, continued positive annual GDP is forecasted for the coming years and HRM’s population increases continue to help address longer-term demographic challenges.

Forecasts for the Halifax economy are produced by the Conference Board of Canada. According to their Fall 2023 report:

- Over the 2024-27 period, annual GDP growth will average 1.8%, with a low of 1.0% in 2024 and a high of 2.4% in 2025
- The unemployment rate will rise to 6.9% in 2024 and then fall steadily to reach 5.8% in 2027.
- Population growth will drop to 2.6% in 2024 and then remain close to 2.0% over each of the next three years.
- Inflation will flatline close to 2.0% from 2024 through 2027.

As Nova Scotia’s capital, HRM’s growth significantly contributes to provincial population and economic growth, accounting for 47% of the population and 56% of GDP. Halifax’s economic strategy has been
informed by and is in alignment with provincial priorities and goals to ensure that every Nova Scotian can contribute to and benefit from economic growth which in turn supports improvements to healthcare, access to affordable housing, and advancements in climate action and energy transformation.

Economic growth is not without its challenges. The issues facing Halifax are complex and interconnected. The solutions being developed, and as actioned in the Economic Strategy, must address the interconnection among the labour market, housing, cost of living, transportation, and climate issues. Solving these challenges will require continued and long-term investment, action, and collaboration among all three orders of government, the private sector, post-secondary institutions and our communities working towards shared goals and vision.

Economic Strategy review

The vision of the Inclusive Economic Strategy is, “A prosperous, growing Halifax that puts the well-being of people and planet first.” It is supported by a quantitative vision of growing Halifax’s GDP to $32 Billion and its population to 650,000 by 2037. While only two years into the five-year strategy for 2022-27, progress to date suggests that the population and labour force growth goals for 2027 are within reach. It seems less likely that the ambitious 2027 target for GDP growth will be achieved. In the one year of reporting since a baseline value was established in 2022, the well-being metric has improved.

The Inclusive Economic Strategy has three five-year strategic goals which will remain in Years 3-5. These include:

1) Promote and Maximize Inclusive and Sustainable Growth;
2) Attract, Retain, and Develop Talent; and,
3) Make Halifax a Better Place to Live, Work, and Visit.
The strategic goals are supported by 17 five-year objectives that were, in turn, supported by actions shared by HRM and the Partnership. The economic strategy’s action plan for Years 1-2 (2022-24) had 73 actions, 39 of which were led by HRM, 25 by the Partnership, and the remaining 9 co-led by the two organizations.

After review of the strategy, it is recommended that Years 3-5 move forward with the 17 five-year objectives and a set of 60 revised actions, (See Attachment A) which are highly similar to the original set of actions. The wording of objectives 1.1, 1.2, 1.3 and 1.9 has been updated for greater clarity, relevance, or additional emphasis. Many actions remain unchanged and are in-progress and several feature only very minor wording changes. Some of the original actions are now completed and have been removed from the action lists. These actions include the creation of public dashboard tracking housing supply indicators, the development of by-laws regarding short-term rentals, and hosting the North American Indigenous Games. Additionally, some actions have been removed as they were associated with immediate pandemic recovery or were identified as no longer being relevant or required.

Three entirely new draft actions have been added:

- developing an African Nova Scotian Index, modelled after the Halifax Index, that tracks and reports on economic and well-being indicators for the African Nova Scotian community.
- implementing HRM’s Accessibility Strategy, which aims to advance the participation, accessibility and inclusion of individuals who visit, work and live in HRM; and
- implementing the recommendations from HRM’s Rural Recreation Strategy. Approved by Regional Council in January 2024, this strategy is the municipality’s first comprehensive examination of recreation service delivery and equitable access to parks and recreation services and assets in rural communities. Strategic actions from the plan will further contribute to the Economic Strategy’s overall goals and vision.

Alignment and Collaboration

Halifax’s 2022–27 economic strategy is a shared roadmap for economic development in the municipality, founded on the values of engagement, inclusion, alignment, and collaboration. Although the strategy focuses on priorities, actions, and targets that are within the mandate of the Halifax Regional Municipality and Halifax Partnership, it is aligned to and helps advance provincial, federal, private sector, and community economic development priorities and goals. Halifax Partnership leads the economic strategy implementation in collaboration with the Halifax Regional Municipality and partners across all sectors.

Measurement and Reporting

Halifax Partnership is responsible for tracking, monitoring, and reporting on progress against Halifax’s 2022-27 economic strategy goals and objectives to the Halifax Regional Municipality and the broader community. The Partnership’s Halifax Index and Economic Dashboard reports on progress against the 2022–27 economic strategy, providing insight on challenges and opportunities and acting as tools for course correction and adjustment as needed. The Partnership releases the Halifax Index publicly each spring and regularly updates the Economic Dashboard as new data become available. Both are accessible on the Partnership’s website (www.halifaxpartnership.com/research-strategy/).

FINANCIAL IMPLICATIONS

*People. Planet. Prosperity.* is being implemented with existing budgets. There are no new financial implications as a direct result of the material in this report.
RISK CONSIDERATION

No risks were identified.

COMMUNITY ENGAGEMENT

The economic strategy Action Plan for Years 3-5 has been informed by engagement with Halifax Partnership and HRM business units, the Partnership’s Board of Directors and its Emerging Leaders & Innovators Advisory Board, and external partners who share in delivery of some of the actions. These groups included Discover Halifax, Business Improvement Districts, African Nova Scotian Road to Economic Prosperity Advisory, Elder, and Youth Councils, and the Halifax Chamber of Commerce. Additionally, consultations were offered to business associations in Fall River, Musquodoboit Harbour, Prospect, Sheet Harbour, and St. Margaret’s Bay whose perspectives and engagement will continue to be sought through the regular outreach by the Halifax Partnership’s SmartBusiness team.

ENVIRONMENTAL IMPLICATIONS

No environmental implications were identified.

ALTERNATIVES

The Community Planning and Economic Development Standing Committee could choose not to forward this report to Regional Council for information.

People. Planet. Prosperity.

Halifax’s Inclusive Economic Strategy 2022–2027
Action Plan: Years 3-5

JANUARY 2024
ACKNOWLEDGMENTS

The Halifax Regional Municipality is located in Mi’kma’ki, the ancestral and traditional lands of the Mi’kmaq people. The municipality acknowledges the Peace & Friendship Treaties signed in this Territory and recognizes that we are all Treaty People. We also acknowledge the histories, contributions, and legacies of the African Nova Scotian people and communities who have been here for over 400 years.

Thank you to the Economic Strategy Advisory Committee, working groups, and the many businesses, residents, and public, private, post-secondary, and community partners who contributed to the development of People. Planet. Prosperity. Halifax’s Inclusive Economic Strategy 2022–27, and to representatives from these groups who contributed to the development of this action plan for years three to five of the strategy.

GUIDING PRINCIPLES

These guiding principles reflect shared values that were reinforced during the engagement process and have informed the development of the economic strategy. They will continue to guide implementation over the next three years.

- **Collaborative**: We work together on shared plans and a common agenda to maximize impact and efficiency.
- **Global**: We look globally for new investment, talent, and growth opportunities.
- **Welcoming**: We welcome new people and businesses into our communities and support them in growing and succeeding.
- **Inclusive**: We are committed to diversity, equity, transparency, and ongoing relationship building and engagement to build a better Halifax for all.
- **Innovative**: We foster innovation and entrepreneurship to drive economic growth and address social, civic, and environmental challenges in the pursuit of a more livable, inclusive, prosperous, and sustainable Halifax.
- **Sustainable**: We believe in a sustainable approach to economic growth that takes into consideration all the factors that influence the well-being of a community including economic, environmental, social, and cultural aspects.
- **Accessible**: We strive to create a municipality where everyone, regardless of their ability or disability, has equal access to programs, services, and opportunities. Accessibility is an issue which concerns and impacts our businesses and residents.
MESSAGES

Messages will be included in the final published document.
INTRODUCTION

Economic Strategy Review

In April 2022, Halifax Regional Council approved People. Planet. Prosperity. Halifax’s Inclusive Economic Strategy 2022-27 ("the strategy"). The strategy was developed with input from businesses, all orders of government, economic development partners, residents, and communities from across the municipality to deepen our understanding of key emerging themes and to share ideas, insights, and actions to build a more inclusive, sustainable, resilient, and prosperous Halifax for all. In total, more than 2,500 contributors helped shape the 2022–27 economic strategy.

The new five-year strategy in many regards is a continuation of the previous strategy for the years 2016-21. While significant progress was made over the 2016-21 period, COVID-19 notwithstanding, issues such as long-term demographic challenges are not yet solved and goals to grow the economy, the population, and the labour force remain appropriate. In the new strategy, a top-level goal of improving well-being was added to put more explicit focus on ensuring that all residents are included in and can benefit from Halifax’s growth and prosperity.

While only two years into the five-year strategy for 2022-27, progress to date suggests that the population and labour force growth goals for 2027 are within reach. It seems less likely that the ambitious 2027 target for GDP growth will be achieved. In the one year of reporting since a baseline value was established in 2022, the well-being metric has indeed improved.

As the challenges and most of the goal areas of the 2016-21 strategy were carried forward into the 2022-27 strategy, so too were many of the detailed actions that have generated success to date. The strategy’s Action Plan for Years 1-2 (2022-2024) lists 73 actions, of which 25 are assigned to the Halifax Partnership, 39 are assigned to Halifax Regional Municipality, and nine are assigned to the two organizations jointly. In addition to federal and provincial government partners, many other organizations and communities are identified as key collaborators in successfully achieving various actions.

The new strategy also mirrors the old in that both set out a requirement to review the actions during the second year of the five-year period and refresh them for years three through five to respond to changed economic circumstances, challenges, and new opportunities that have arisen since the strategy’s original approval. This document is the culmination of the review and refresh process for years three to five of the 2022-27 economic strategy.

The review process entailed consultations with the Halifax Partnership’s and the Halifax Regional Municipality’s business units tasked with the lead for specific actions. As issues were identified requiring additional external expertise and input, discussions were held with or offered to other organizations such as the Business Improvement Districts, Discover Halifax, the Advisory, Elder, and Youth Councils for the African Nova Scotian Road to Economic Prosperity, and various chambers of commerce representing both urban and rural areas of the municipality. Perspectives and input from these diverse groups are reflected in this new Action Plan for Years 3-5.
As intended, this interim review process has resulted in refinements and fine-tuning of the economic strategy, not an overhaul of its core substance. The Years 1-2 Action Plan included 73 actions. Some actions have been removed as they are now complete (for example, “Host the North American Indigenous Games”) or are no longer relevant (for example, “Maintain essential services and move HRM business services online” – an action crafted very much in the shadow of a still-active pandemic in late 2021 and early 2022). Other actions have been refined and updated in response to changed circumstances and in some cases multiple related actions have been combined. The Years 3-5 Action Plan (2024-2027) includes 60 actions: Halifax Partnership leads 17 actions, HRM leads 38, and five are co-led by both organizations.

The detailed Action Plan for Years 3-5 is included on pages 12-17.

Economic Environment and Impacts

Understanding the ways in which the world has changed since April 2022 was a critical component in developing the new Action Plan. A first key difference is that the last COVID-19-related restrictions were lifted in July 2022. COVID-19 remains with us, people continue to fall ill, and taking measures to protect ourselves and those around us remain important. Many after-effects linger including disruptions to supply chains, changes to the labour market and ways in which businesses operate (including remote work), and looming debt repayments. However, immediate economic impacts of the pandemic, such as mandated business shutdowns, are now behind us.

April 2022 also marked the peak of a rapid run-up in Halifax house prices. Housing availability and affordability, significantly elevated inflation more broadly, and the Bank of Canada’s aggressive interest rate hikes in response to that rise in inflation are now the top-of-mind economic issues both in Halifax and across Canada. The financial positions of many individuals and businesses have become increasingly precarious. As inflation continues to subside, however, many analysts are expecting interest rates to begin to decline through 2024.

Halifax’s 2022 population growth datapoint – from 2021 the population grew by 20,713 people to reach a population of 480,582 – showed not only a record high but was almost twice the value of the previous high. This growth is what we have been wishing for and working towards for the past decade to help us address our long-term demographic challenges and potential impacts on Halifax’s labour market and economic growth. However, recent population growth has significantly exceeded the growth in our housing supply, resulting in rapidly tightening markets, sharply higher prices, and serious problems with availability. Fortunately, housing starts and completions are trending upwards. While there are no quick and easy solutions, all levels of government are clearly seized with addressing housing and homelessness issues.

Despite the influx of people, labour availability remains a serious concern for many employers. Furthermore, recent economic growth also has not kept pace with population growth and productivity statistics have been anemic for some time. Continued and increased investment and innovation will be necessary to maintain business competitiveness and to propel improvements in our standard of living. Halifax continues to benefit from major projects such as the manufacturing of ships for the Royal Canadian Navy by Irving Shipbuilding and the Cogswell District Redevelopment project.
International issues such as the Russian invasion of Ukraine, the Hamas attack on Israel and the Israeli response, an ebb in Canada-China relations, and uncertainty over the future political direction in the United States have had and will continue to have impacts on the Halifax economy, including contributions to inflationary pressures and heightened risks for our exporting firms and for those who move their goods to foreign markets.

Over the course of 2022 and 2023, Halifax was hit by two hurricanes, devasting wildfires, and a one-in-one-thousand-year flood – homes were destroyed and many businesses were severely impacted. Public infrastructure took a major hit, as did public coffers due to relief, repair, and rebuilding expenses. These disasters highlighted the urgency of dealing with climate change and focused attention on the need for residents, businesses, and governments to be better prepared and resilient in the face of future similar events.

While there are many challenges to be addressed, continued positive annual GDP growth is forecasted for the coming years and our population increases continue to help us address our longer-term demographic challenges.

**Looking Ahead**

Forecasts for the Halifax economy are produced by the Conference Board of Canada. According to their Fall 2023 report:

- Over the 2024-27 period, annual GDP growth will average 1.8%, with a low of 1.0% in 2024 and a high of 2.4% in 2025.
- The unemployment rate will rise to 6.9% in 2024 and then fall steadily to reach 5.8% in 2027.
- Population growth will drop to 2.6% in 2024 and then remain close to 2.0% over each of the next three years.
- Inflation will flatline close to 2.0% from 2024 through 2027.

As Nova Scotia’s capital, Halifax’s growth and success significantly contributes to provincial population and economic growth, accounting for 47% of the population and 56% of GDP. Halifax’s economic strategy has been informed by and is in alignment with provincial priorities and goals to ensure that every Nova Scotian can contribute to and benefit from economic growth which in turn supports improvements to healthcare, access to affordable housing, and advancements in climate action and energy transformation.

We know that economic growth is not without its challenges. The issues facing our city and province are complex and interconnected. The solutions being developed must address the interconnections among the labour market, housing, cost of living, transportation, and climate issues. Solving these challenges will require continued and long-term investment, action, and collaboration among all three orders of government, the private sector, post-secondary institutions, and our communities toward our shared goals and vision for Halifax.

Over the next three years, we will continue to build upon and maximize Halifax’s strengths, spirit of partnership and cooperation, and our best economic opportunities to build an inclusive, sustainable, and prosperous Halifax for all.
BUILDING ON STRENGTHS AND OPPORTUNITIES
Successful inclusive economic development leverages and builds upon strengths and opportunities that are aligned to a shared vision, values, and principles. To achieve our vision for Halifax, we will continue to leverage our ocean advantage, invest in climate action and the green economy, build upon our educated and innovative community, and showcase and strengthen Halifax’s excellent urban, suburban, and rural lifestyle.

Halifax is Canada’s ocean city — a hub for marine science, R&D, business, defence, and tourism - offering local and global ocean innovators and companies access to a deep and diverse ecosystem of customers, partners, and suppliers. The ocean drives our economy and provides competitive advantages in key sectors like ocean tech, cleantech, defence, advanced manufacturing, IT, and transportation and logistics. Ocean technology is one of the region’s largest advanced technology industries with high levels of R&D and innovation, highly skilled talent, and an export focus.

Halifax has one of the most ambitious climate action plans in Canada, HalifACT, with a goal to achieve net-zero emissions by 2050. Halifax is a hub for clean and climate tech innovators and collaborations between research centres, post-secondary institutions, incubators, businesses, and government. The city’s innovation ecosystem is supporting the growth of companies like homegrown NOVONIX spun out of world-class battery technology research at Dalhousie University. Halifax’s commitment to climate action and sustainability holds exciting possibilities and growth opportunities.

Halifax is an educated and entrepreneurial city that is fast becoming one of Canada’s most exciting tech hubs with a globally recognized innovation district. Halifax’s combination of drive and discovery, technology and talent, and collaborative ecosystem is fueling the growth of hundreds of viable startups and scaleups. The city’s seven universities and three community college campuses enrol over 35,000 students annually and produce a highly skilled and diverse workforce for the city’s knowledge-based industries including IT, life sciences, ocean tech, financial services, and cleantech.

Halifax is an enviable place to live, work, play, and visit. Our city offers the amenities and opportunities of a major urban centre combined with rural charm, natural beauty, and a coastal culture and lifestyle. Residents enjoy life in more than 200 rural, urban, and suburban communities that boast a variety of businesses, dining, nightlife, and arts, entertainment, and recreation options. Halifax’s quality of life continues to be a considerable advantage and key driver of attracting new residents, businesses, and visitors. Recent growth has added to challenges in housing and health care; however, the municipality is working diligently with partners on solutions.
ECONOMIC STRATEGIC FRAMEWORK

VISION
A prosperous, growing Halifax that puts the well-being of people and planet first.

By 2037 grow GDP to $32 billion and population to 650,000

VALUE PROPOSITION

Promote & Maximize Inclusive and Sustainable Growth
Grow GDP to $25 billion by 2027

Attract, Retain & Develop Talent
Increase population to 525,000 and grow the labour force to 310,000 by 2027

Make Halifax a Better Place to Live, Work and Visit
Increase residents’ well-being on a continuous basis

STRATEGIC GOALS AND OBJECTIVES YEARS 3-5

- Support business resiliency, response, and recovery from economic challenges and disasters.
- Make Halifax an easier and more productive place to do business.
- Work nationally and internationally to support companies looking to locate and grow in Halifax.
- Accelerate innovation and entrepreneurship.
- Pursue and maximize the economic impact and social benefits of major projects.
- Increase housing stock.
- Advance holistic planning in urban, suburban, and rural areas.
- Provide research and actionable insight needed to support economic and business growth.
- Increase workforce attachment and combat systemic barriers.
- Prepare business to meet future of work needs.
- Increase Halifax’s environmental sustainability and resiliency.
- Increase access to arts, culture, recreation, and natural assets in Halifax.
- Make it easier for people and goods to move throughout Halifax and the region.
- Strengthen the dynamism of our downtown, main streets, and rural centres.
ALIGNMENT AND COLLABORATION

Everyone has a role to play in driving Halifax’s inclusive economic growth and prosperity.

Halifax’s 2022–27 economic strategy is a shared roadmap for economic development, founded on the values of engagement, inclusion, alignment, and collaboration. Collectively, this strategy is ours to own and implement together to achieve our vision for Halifax.

Halifax’s economic strategy focuses on priorities, actions, and targets that are within the mandate of the Halifax Regional Municipality and Halifax Partnership and are best delivered in collaboration with partners. It is aligned to and supports the advancement of provincial, federal, private sector and community economic development goals and priorities.

This updated strategy includes five-year goals and objectives, years 3-5 actions, lead organization(s), and progress measures. It will inform and shape municipal decision-making and activity and guide the activities of Halifax Partnership and other economic development and business agencies over the next three years. It will also influence and align key players and partners to support Halifax’s inclusive economic growth. Complex initiatives will have their own implementation plans developed by lead organizations with support from partners, and some activities will require additional financial and human resources from public and private sector partners.

Business leaders and all orders of government agree that there is strength in alignment, partnership, and collaboration to achieve our goals. We will continue to build on progress by working as a team to grow the economies of Halifax and Nova Scotia. Halifax Partnership and the Halifax Regional Municipality will continue to convene and collaborate with economic leaders and diverse groups to develop and implement integrated, long-term solutions to complex economic and social issues. Engaging the broader community is also critical to success. Halifax Partnership and the Halifax Regional Municipality work closely with partners to build relationships with and engage diverse groups and communities across the municipality in implementing the strategy.

3.4 Strengthen the dynamism of our downtowns, main streets, and rural centres.
IMPLEMENTATION

Halifax Partnership leads the economic strategy implementation and is responsible for tracking, monitoring, and reporting on progress against goals and objectives to the Halifax Regional Municipality and the broader community. The Partnership leads 17 of the actions defined in the strategy in collaboration with its private, public, post-secondary, and community partners. The Halifax Regional Municipality leads 38 actions and uses the strategy as a guide for making decisions and leading initiatives in support of the goals and objectives. Five actions are co-led and implemented by both organizations in collaboration with partners.

Governance

Halifax Partnership Board of Directors
Halifax Partnership’s Board of Directors provides oversight and strategic guidance, keeping the strategy focused and ensuring coordination.

Halifax Regional Council and Community Planning and Economic Development Standing Committee
The Mayor and members of Halifax Regional Council and the Community Planning and Economic Development Standing Committee provide oversight and ensure the strategy's goals are aligned with the municipality’s programs and economic priorities.

Engagement

The Halifax Regional Municipality and Halifax Partnership will continue to engage with a variety of partners to implement the years 3-5 actions. These include:

- Private sector
- Provincial government
- Crown corporations
- Federal government
- Municipal government
- Regional Enterprise Networks
- Business improvement districts, Chambers of Commerce, and other business and industry associations
- Tourism agencies
- Universities, Nova Scotia Community College, and private colleges
- Communities at risk of exclusion / equity-seeking groups
- Not-for-profit sector
- Arts and culture sector
MEASUREMENT

The Halifax Index
The Halifax Index tracks progress on Halifax’s economic strategy and serves as an annual call to action on key challenges and economic opportunities. The Halifax Index, as well as the Partnership’s Halifax Economic Dashboard, measure and report on progress against the 2022–27 economic strategy, providing insight on new challenges and opportunities, and acting as tools for course correction and adjustment as needed. The Halifax Partnership releases the Halifax Index publicly each spring.
