

General Series

Multiple Civics on a Parcel

If you search an address and the search results return an address that is similar but not correct, the search is probably returning the Primary address, and you will need to complete an additional step to select the appropriate secondary (actual) address. This occurs because there are multiple addresses on the Parcel.

Multiple Addresses on a Parcel

1. From the search results select the address returned (even if not correct).
2. If there are multiple civics on the parcel, a drop down list will appear in the location section.
3. Click the **Select Address** drop-down list and select the appropriate address from the list.

Deck Permit DECK-2021-05728 (Draft)

LOCATIONS

Addressed Locations

The address for your permit must be added using the search below:

1. Enter a PID or Civic # and Street Name in search box below, ex: 15 Quinpool
*Do Not enter the Street Type (Rd, Ave, St) in your search
2. Select Address from the list of search results.
3. If a unit or suite number is applicable, please include in the specific location box below.

*Address:

Parcel ID	Address	Net Acres
40264335	131 THORNHILL DR, DARTMOUTH, NS B3B1S2	5
Total Area:		5

*Select Primary Address:

Specific Location:

- 131 THORNHILL DR, DARTMOUTH, NS B3B1S2
- 139 THORNHILL DR, DARTMOUTH, NS B3B1S2
- 141 THORNHILL DR, DARTMOUTH, NS B3B1S2

Example: A search for 139 Thornhill will return: 40-264-335 PID / 131 Thornhill Drive.

From the pull down you would select 139 Thornhill drive.

The parcel 40-264-335 contains multiple civics.
