The Halifax Regional Municipality may consider the establishment of a private road maintenance fee to be collected on the annual tax bill under Admin Order 2019-003-ADM, if a minimum of 66.7% or property owners are in agreement, and based on the following conditions.

The purpose of this policy is to provide a financing procedure for the funding and repayment of work to maintain private roads, including culverts, retaining walls, sidewalks, curbs and gutters that are associated with those private roads. Road maintenance includes all work required to maintain the road in a serviceable condition year round and may include snow removal, grading, ditch and culvert and bridge repair and brush clearing. Cost recovery facilitation under this policy is not available for the construction or capital improvement of private roads.
