Capital Project Information – the inclusion of a newly proposed capital project on this business plan, and its acceptance by HRM does **not** constitute immediate approval of the project. Business plans are not approved by Council. The approval for a proposed capital project will only happen once the following conditions have been met:

- A needs and suitability assessment is fully completed by Parks & Recreation or the appropriate business unit
- A maintenance plan has been considered in collaboration with the appropriate business unit
- Council has approved the project in the Municipality’s capital budget

Parks & Recreation must receive a new capital project proposal by late Spring at the latest, in order to have the required time to evaluate it before September when the capital budget proposal is prepared for the following fiscal year. It is recommended that a dollar figure not be assigned to a newly proposed capital project in the business plan until such time as it has been included in the capital budget; as the assessment may span multiple fiscal years and the project may end up being rejected.
