How is Halifax Transit Changing?

As our city changes, so do our public transit needs. The *Moving Forward Together Plan* will improve our transit system to better meet the needs of residents in the Halifax region, now and in the future.

The *Moving Forward Together Plan* includes a redesign of the Halifax Transit route network which will consist of various service types. To easily understand each route's service type, every service type will have a unique range of route numbers. For example:

Corridor Routes: 1-10

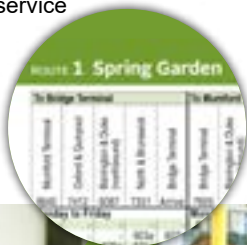

Local Routes: 20-99

Express Routes: 100-199

Regional Express Routes: 300-399

Rural Routes: 400-499

With this new system, just by looking at the route number, riders will be able to understand the service type and frequency of the route. The revamped transit system allows for new, more direct and frequent routes to make our transit network faster, more reliable and easier to understand.

Understanding the Route Schedules

This Riders' Guide contains timetables for all Halifax Transit routes in numerical order. The diagram below explains how to interpret the schedules.
